Civilian Radioactive Waste Management

Our mission is to manage and dispose of high-level radioactive waste and spent nuclear fuel in a manner that protects health, safety and the environment; enhances national and energy security; and merits public confidence.

Newsroom

On this page, you'll find the latest news from the Department of Energy about the Office of Civilian Radioactive Waste Management and the Yucca Mountain Project. [Read More >](#)

Current locations of nuclear waste in the United States

Nuclear waste is currently located in more than 120 locations in 39 states. [Read More >](#)

License Application Information

Following more than 20 years of study by the U.S. Department of Energy, Congress approved in July 2002 the President's recommendation of the Yucca Mountain site for development as a repository for the disposal of spent nuclear fuel and high-level radioactive waste. [Read More >](#)
