Office of Legacy Management

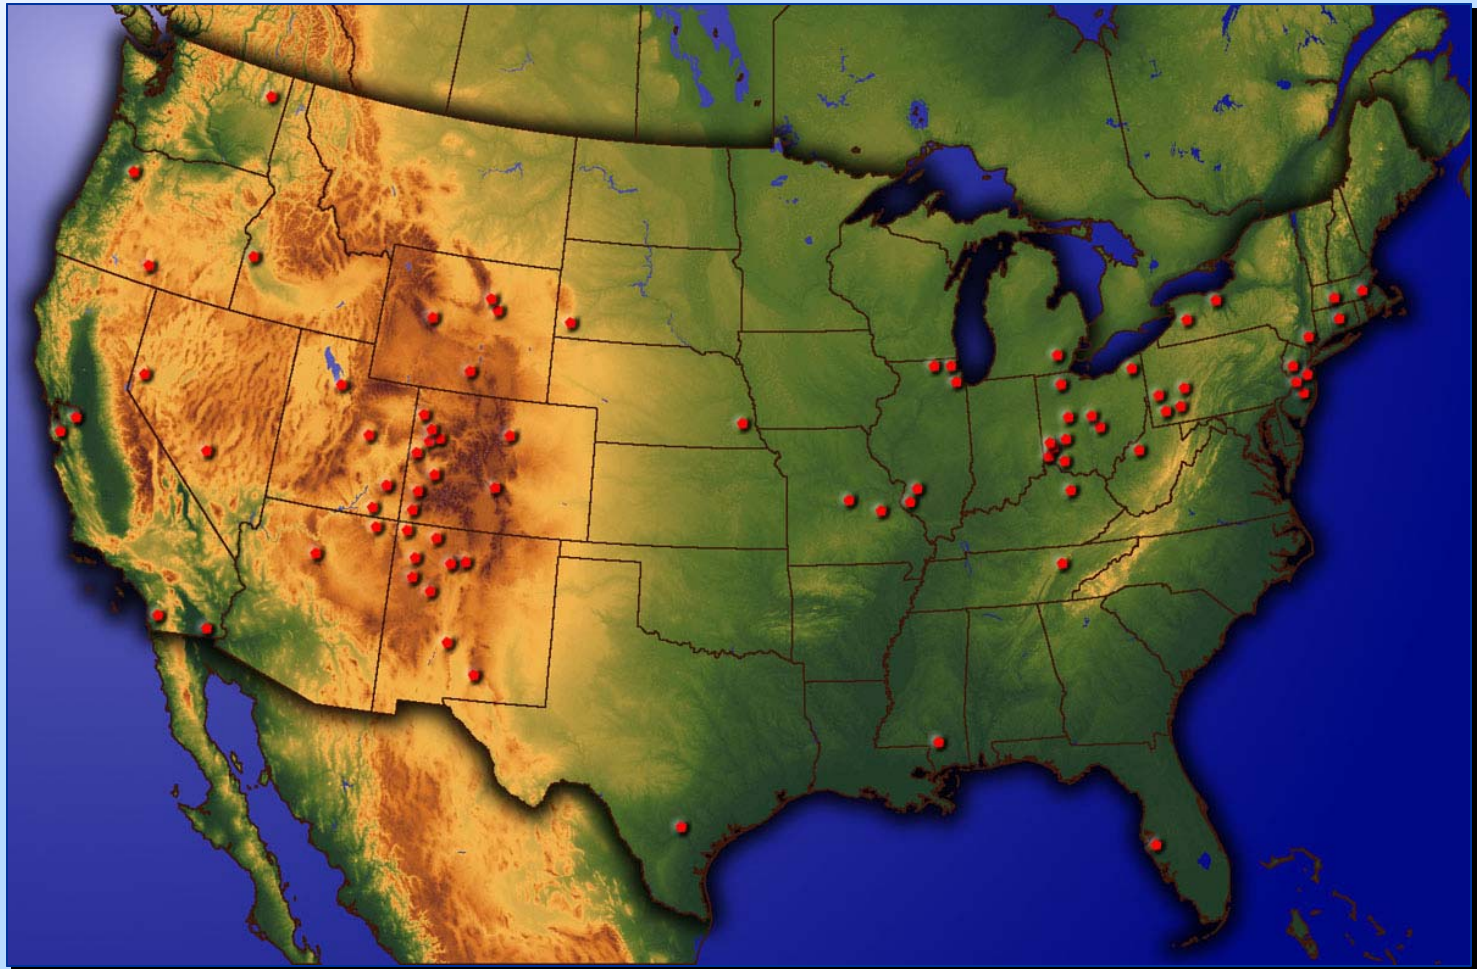

Mission:

- Protect human health and the environment
- Support an effective and efficient workforce
- Preserve legacy records and information
- Manage legacy lands

Stoller currently manages post-closure responsibilities at 80 former DOE, FUSRAP, and UMTRCA sites for Legacy Management.

Post-Closure Sites

Mound Closure Project

Mound Closure Project

Mound Closure Project

- CH2M HILL, Mound, Inc. declared physical completion July 30, 2006
- Remains an EM site, managed by LM
- One remediation contract for OU-1 to complete the cleanup

Mound Closure Project

Stakeholder Involvement

- Responsible for the transfer of all remaining site buildings from DOE to a local community reuse organization
- Participated in developing institutional controls
- Lobbied Congress for additional cleanup funds
- Involved in ongoing disputes

LM Stakeholder Relations

- Energy Employees Occupational Illness Compensation Program Act (EEOICPA)
- Digitized Administrative Record
- Continue established communication
 - Public meetings
 - Public Reading Room
 - Interactions
- Future stakeholder relations
 - Prior EM public involvement
 - New generation of stakeholders
 - New mission

Next Generation Stakeholders

New trends are developing as the next generation of stakeholders becomes active during mission changes at the various sites.

- Fernald Preserve
 - Weapons to Wetlands
- Weldon Spring
 - Interpretive Center attracts 15,500 visitors per year
- Rocky Flats
 - Property transfer to U.S. Fish and Wildlife Service
