Memphis Facility

An aerial photograph of an industrial facility in Memphis, Tennessee. The facility is situated along the Mississippi River, which is visible on the left side of the image. The facility includes several large, rectangular buildings with brown roofs, a cluster of white storage tanks, and a large parking lot. A railway line runs through the facility, and a barge is docked at the river. Three blue callout boxes with arrows point to specific features: 'Barge Access (2 miles)' points to the river, 'Large Component Shop' points to a large building, and 'Rail Spur onto Property' points to the railway tracks.

Barge Access (2 miles)

Large Component Shop

Rail Spur onto Property

Transfer Station Operations

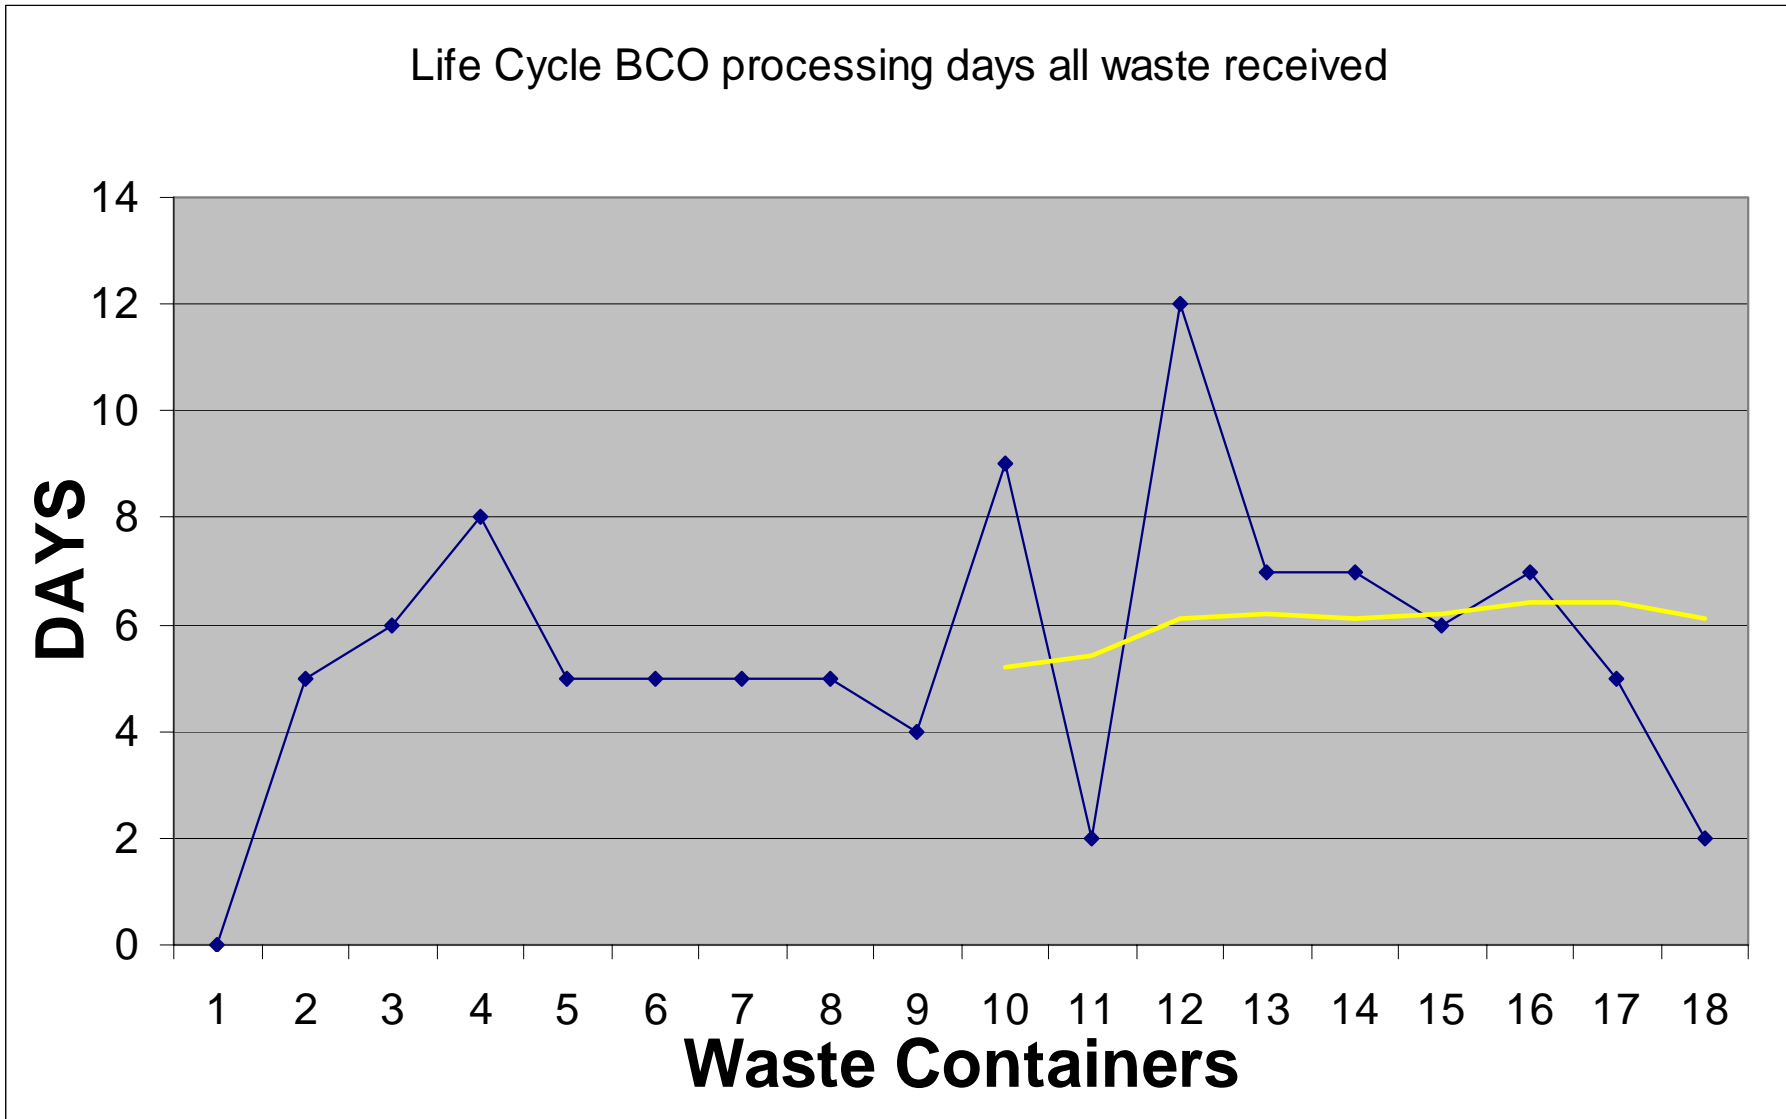

- Commodity DAW and Metals “Commercially Certified” for Clive disposal replacing Incineration and Compaction
- Customer Benefit:
 - ❖ Speed of processing/disposition (less than 45 day average to disposal)
- Transfer Station Commissioned September 2006
 - ❖ 40’ long 12’ high Container Pit Installed in Metals Building
 - ❖ Shipments to Clive Commenced October 2006

Bear Creek Transfer Station Processing Summary

Life Cycle BCO processing days all waste received

Incineration

■ **CHANGES TO INCINERATION LICENSING:**

- Ash attribution model decouples generator ID after incineration
- Ash Attribution for C-14/H-3 tracked to stack emissions
 - No effect on waste class
 - Preferred method to destroy broker wastes
- Authorization to “burn/recycle” gases and radioactive sources and standards

Shield Block Program

ENERGYSOLUTIONS

- **Shield Block Contract Signed with KEK, Japan. Delivery from 2007-2010**
- **Authorization to Recycle metallic radioactive source less than 50 uCi**
- **New products:**
 - **Irradiated hardware storage canister**
 - **Security barriers**

Lead Casting/Recycling **ENERGYSOLUTIONS**

- **Recycled over 1 Million Pounds of Lead**
 - **Products Ranging from Duratek Designed DOT Type A Packages**
 - **Specialty Shields for Accelerators**
 - **Classified shapes destruction path**

Resin/Filter Services

- **Final Resin Dewatering and Solidification**
- **High Rad CW Water/sludge Drying**
- **Filter Re-characterization (B/C filters)**
- **Water Processing Tubesheet Rebuilds/Dewatering Container Fab**
- **Mobile Centrifuge and Analytical Laboratories**

DOE Repackaging and Special Processing

- **Repackaging/Certification of DOE Wastes**
 - Re-characterization
 - Size-reduction
- **NTS Certification Program**
 - Off-site Processing or Program Management
- **Shipped Post Processing Certified Waste to Most DOE 435.1 Landfills**

Memphis Operations *ENERGYSOLUTIONS*

- Barge, Rail, Road Access
- “Safeshop” Customer Hotshop Rental
- Rad Equipment Storage
- Outage Equipment Service Center
- EnergySolutions Project Service Center
 - ❖ Equipment Decontamination
 - ❖ Container Decontamination
 - ❖ Tank Segmentation
 - ❖ Large Component Staging
