

WM2012 EXHIBITORS IN ALPHABETICAL ORDER

AAT Carriers, Inc.

Contact: Nina Wilson Booth #: 320
2515 East 43rd St, Ste F, Chattanooga, TN 37407
P: 866-797-4617 F: 866-421-1804
Email: nwilson@aatcarriers.com
Website: www.aatcarriers.com

AAT Carriers specializes in hazardous transportation services which includes transporting all hazardous material, hazardous waste, explosives, nuclear, sensitive material, and shipments that require high security. We are devoted to being one of the premier nationwide carriers for hazardous and sensitive materials, dedicated to providing quality and superior service 24/7/365.

ABW Technologies, Inc.

Contact: Aimee Dura Booth #: 219
6720 191st PI NE, Arlington, VA 98223
P: 360-618-4416
Email: adura@abwtec.com
Website: www.abwtec.com

ABW specializes in custom metal fabrication and systems integration for the Nuclear Industry. ABW is experienced in Shipping Packages, Gloveboxes, Mechanical Equipment and Vessels. ABW's mature NQA-1 Program and reputation for excellence, makes them the preferred fabricator for clients nationwide.

Aerotek, Inc.

Contact: Allyson Curran Booth #: 411
7301 Parkway Dr, Hanover, MD 21076
P: 1-888-Aerotek
Email: acurran@aerotek.com
Website: www.aerotek.com

Aerotek Government Services serves government agencies, integrators and contractors with talent management, program support and managed services solutions. Whether you are meeting cyclical or surge demands or require additional personnel for entry level to senior staff positions, Aerotek can help you execute programs and tasks almost anywhere in the world.

Aaron Nuclear Services

Contact: Scott Eckler Booth #: 1026
2138 State Route 18, Wampum, PA 16157
P: 513-759-4303 F: 513-759-4302
Email: eckler@alaron-nuclear.com
Website: www.alaron-nuclear.com

A subsidiary of Veolia ES Technical Solutions. Alaron provides a complete range of services to companies engaged in the nuclear marketplace. Services include, but are not limited to: Pump and Motor Refurbishment, Decontamination, Service Level I

Coatings, Waste Handling, Facility Access, Contaminated Equipment Storage and Special Projects.

Alliant Corporation

Contact: Gregory Galaher Booth #: 929
320 N Cedar Bluff Rd, Ste 200, Knoxville, TN 37923
P: 865-934-2222 F: 865-769-0946
Email: gcalaher@alliantcorp.com
Website: www.alliantcorp.com

Alliant Corporation provides technical and management professional services in three primary areas of expertise: Environmental Services/Waste Management, Occupational Safety and Health Services, and Project Management/Project Controls. As a Service -Disabled Veteran Owned Small Business, Alliant offers its services to government and municipal agencies, construction and manufacturing industry, power and utilities, and drilling and mining. Alliant's offerings support projects including environmental remediation, operations, D&D, and construction. Clients who benefit from Alliant's support include DOE, the USACE, NASA, TVA, Fluor, URS, Shaw, Bechtel, B&W, and CH2M HILL.

ALS Environmental

Contact: Claudia Stull Booth #: 426
319 Lafayette, Brandenburg, KY 40108
P: 270-422-1506 F: 270-422-1507
Email: claudia.stull@alsglobal.com
Website: www.alsglobal.com

ALS provides complete Environmental Analyses, Radiochemistry, Industrial Hygiene/Air Quality, Stack Testing, Asbestos, Dioxin/Furan/Congeners, Emergents, Explosives, Agent Degradation, Mycology services from 15 US facilities and global network of over 60 environmental laboratories in 20 countries. NELAP, DOD ELAP, DOECAP, APHIS, AIHA, State approval. Celebrating over 33 years of service in the US. Welcome Columbia Analytical, the newest member of the ALS network.

AMEC

Contact: Kristi Shober Booth #: 315
1819 Denver West Dr, Ste 100, Golden, CO 80401
P: 303-273-5071
Email: kristi.shober@amec.com
Website: www.amec.com

Environmental Remediation, Management and Compliance: from landmark remediation programs to local waste management projects, AMEC's interdisciplinary team develops and implements integrated solutions that incorporate innovative technologies to address complex radiological,

hazardous, and multimedia contamination problems. AMEC helps clients move projects through cleanup and regulatory compliance to environmental excellence, adding a sustainability focus to our services to maximize benefits for mankind and the local / regional ecology. As one of the largest engineering, project management and consultancy firms in the world, AMEC operates in nearly 40 countries through a network of 270 locations from the Australian outback to the Arctic.

American Crane & Equipment Corporation

Contact: Lisa Walleigh Booth #: 503
531 Old Swede Rd, Douglassville, PA 19518
P: 610-385-6061 F: 610-385-3191
Email: lwalleigh@americancrane.com
Website: www.americancrane.com

A leading provider of cranes, hoists, manipulators, and specialized lift systems. Customers include commercial nuclear plants, DOE facilities, DOE laboratories, and defense facilities. American Crane's recent focus has been supplying cranes and replacement trolleys/hoists for dry spent fuel storage and radioactive waste remediation. Critical lift cranes having enhanced crane control features are also being supplied for material handling of critical equipment. American Crane has an ASME NQA-1 and 10CFR50, Appendix B QA Program and maintains a full-time service department with capabilities to perform crane mechanical and controls upgrades. American Crane has the in-house capabilities to provide all the cranes needed for new nuclear power plant construction.

American DND, Inc.

Contact: Bill Schaab Booth #: 732
PO Box 533, Grand Island, NY 14072
P: 866-699-5515 F: 716-773-5515
Email: bschaab@americandnd.com
Website: www.AmericanDND.com

American DND performs SAFE Environmental Remediation, Demolition & Nuclear Decommissioning. As a Service Disabled Veteran (SDV) and Small Business (SB) we also help Clients comply with Diversity and set-aside Programs. Our Management Team possess extensive "Lessons Learned" from performing over \$500M of D-N-D Work at over 500 projects over the past 30 years. Radiological Decommissioning projects have been performed at Savannah River Site, West Valley (currently working), Yankee Nuclear Facilities, Oakridge Plants, Fernald, Rocky Flats, DOE, DOD, & USACE Projects. American DND is ready to help with the toughest of your D-N-D Projects.

American Nuclear Society

Contact: Gloria Naurocki Booth #: 536
555 N Kensington Ave, LaGrange Park, IL 60526
P: 708-579-8203 F: 708-579-8295
Email: gnaurocki@ans.org
Website: www.ans.org

ANS' 11,500 individual and 100 corporate members together represent a strong, unified voice in the advancement and support of nuclear science and technology. ANS publishes Radwaste Solutions and Nuclear News magazines, develops industry standards and holds meetings that feature comprehensive technical programs, attracting participants from around the world.

Antech Corporation

Contact: John Mason Booth #: 610
9050 Marshall Ct, Westminster, CO 80031
P: 303-430-8184 F: 303-430-8215
Website: www.antech-inc.com

ANTECH furnishes both off-the-shelf and custom equipment and measurement services for non-destructive assay and characterization of radioactive materials. Applications include SNM characterization, contamination monitors, pedestrian and vehicle portal monitors. Specific technologies include calorimetry, active/passive neutron/gamma counting. Both fixed and mobile systems are available.

Applied Research Center

Contact: Leonel Lagos Booth #: 736
10555 W Flager St, EC 2100, Miami, FL 33174
P: 305-348-1810
Email: lagosl@fiu.edu
Website: www.fiu.edu

Florida International University's Applied Research Center is a university based research center located in Miami, Florida. Since 1995, ARC has supported DOE's environmental restoration mission by conducting applied research in key DOE-EM's technical areas such as Decontamination & Decommissioning, Waste Processing, and Soil & Groundwater. In 2007, DOE and FIU established the DOE-FIU Science & Technology Workforce Development Program; this unique program is designed to develop a "pipeline" of minority scientists & engineers students (called DOE Fellows) specifically trained and mentor to join federal or private sector workforce.

Applus RTD - Quality Inspection Services, Inc.

Contact: Martin Derby Booth #: 501
37 Franklin St, Ste 400, Buffalo, NY 14202
P: 716-853-2611 F: 716-853-2619
Email: Martin.Derby@applusrtd.com
Website: www.ApplusRTD.com

Applus RTD - Quality Inspection Services, Inc. utilizes an ASME NQA-1-based QA program to provide services in nondestructive testing and inspection, civil material testing, and subsurface investigation (geotechnical, environmental, geophysical). Advanced NDT techniques include digital radiography and INCOTEST®; a unique corrosion survey method that allows surveys to occur without the need to make contact with the surface, even while the installation is in operation. QA/QC offerings include vendor surveillance, receipt inspection, auditing, and program development. Applus RTD has over 35 offices across the US.

**AREVA – GOLD SPONSOR**

Contact: Tammy Pattison Booth #: 301
800 Research Pkwy, Meriden, CT 06450
P: 203-639-2148 F: 203-235-1347
Email: tpattison@canberra.com
Website: www.us.aveva.com

AREVA - one company, many solutions. AREVA provides its customers with solutions for low-carbon power generation in North America and all over the world. As the leader in nuclear energy and a significant, growing player in the renewable energies sector, AREVA combines U.S. and Canadian leadership, access to worldwide expertise and a proven track record of performance. Sustainable development is a core component of AREVA's strategy. Its more than 5,000 U.S. and Canadian employees work every day to make AREVA a responsible industrial player helping to supply ever cleaner, safer and more economical energy to the greatest number of people. AREVA Inc. is headquartered in Bethesda, MD.

ARS International, Inc.

Contact: Steve Shirley Booth #: 615
2609 N River Rd, Port Allen, LA 70767
P: 225-381-2991 F: 225-381-2996
Email: sshirley@amrad.com
Website: www.amrad.com

ARS International, Inc. is an 8(a) certified, Native/American, Veteran Owned Small Disadvantaged Business offering the following services: Environmental Remediation Services, Analytical Services, Mobile Laboratory Services, Demolition/Deactivation/Decontamination Services, Health Physicist Services, Hazardous Waste Management Services, Field Sampling Services, as well as additional environmental services.

Arvia Technology

Contact: Mike Lodge Booth #: 225
Daresbury Science and Innovation, Keckwick Lane
Daresbury, Cheshire, WA4 4FS United Kingdom
P: 44-7714-17-0223
Email: mike.lodge@arviatechnology.com

Arvia has proven novel technology which destroys radio active organics, transferring the radioactivity to organic free water.

AT&F Nuclear, Inc.

Contact: Kevin Cantrell Booth #: 731
12314 Elmwood Ave, Cleveland, OH 44111
P: 216-252-1500 F: 216-251-4963
Email: cantrellk@atfnuclear.com
Website: www.atfnuclear.com

AT&F Nuclear, Inc. has actively cultivated its "N" stamp, NQA-1 nuclear equipment fabricating experience (canisters, casks, racks, tanks, pressure vessels, heat exchangers, reactor internals, structural supports, piping systems, dedicated material supply etc.). With more than 70 years of manufacturing experience, AT&F has the capacity and quality systems to provide a best value service to nuclear customers. The company is investing in new facilities, equipment and people to meet the needs of our customers. We invest in customer success! Please contact us and visit our website for more information.

ATI Nuclear Energy

Contact: Mike Grigsby Booth #: 235
PO Box 460, Albany, OR 973214
P: 541-924-6894
Email: Michael.grigsby@atimetals.com
Website: www.ATInuclearenergy.com

As the world's leading specialty metals company, ATI Nuclear Energy offers a broad array of high-strength, corrosion-resistant materials for new construction and waste management nuclear energy applications. Our products are integral to the performance of reactors, reactor vessels, steam generators, turbines, piping systems, personal and equipment radiation shielding products, wet storage racks, dry storage casks and transport containers.

ATL International, Inc.

Contact: Tracy Reavis Booth #: 926
1979 Snyder St, Ste 130, MS G3-72
Richland, WA 99354
P: 509-375-4200 x225 F: 509-375-4288
Email: tracy_y_reavis@rl.gov
Website: www.atlintl.com

Advanced Technologies and Laboratories International, Inc. (ATL) is a technical and management solution provider. We pursue excellence and innovation of sciences and technology to deliver best-value services and solutions. Our key business areas include health and safety, safeguards and security, environmental compliance and assessment, radiochemistry and radioanalysis, and information technologies.

Attention IT, Inc.

Contact: Jeanice Pratt Booth #: 517
1704 Schaeffer Rd, Knoxville, TN 37932
P: 865-769-8888 F: 865-769-8931
Email: jeanice@attentionit.com
Website: www.attentionit.com

The eMWaste® Primary Suite is the only web-based COTS software that tracks hazardous, radioactive and mixed waste. eMWaste® provides electronic "cradle to grave" tracking of profiles, container certification, characterization, inventory, processing, treatment, overpack, shipping, and disposal operations. All this while keeping a full historical record of container movements, processes, parent/daughter processes, and shipping disposition of the container. eMWaste® is composed of seven suites and offers LIMS, Processor, Disposition, Document Control, Dispatch, Project Management, and Contract Management to our customers.

Austin Master Services, LLC

Contact: Jack Bement Booth #: 833
1157 Phoenixville Pike, Ste 102
W Chester, PA 19380
P: 610-430-6920 F: 610-430-6921
Email: jbement@austinmasterservices.com
Website: www.austinmasterservices.com

Austin Master Services is a full-scope Radiological Decommissioning Services Company headquartered in West Chester, Pennsylvania. It is our philosophy and commitment to being the most responsive, safety oriented service provider - dedicated to advising you on the most appropriate method to accomplish your goals and objectives.

Avantech

Contact: Joe Amico Booth #: 436
95-A Sunbelt Blvd, Columbia, SC 29203
P: 803-407-7171
Email: jamico@avantechinc.com
Website: www.avantechinc.com

AVANTech, Inc. is a comprehensive water treatment company providing integrated solutions for the nuclear industry. We also provide custom design-build solutions for our nuclear clients utilizing our ASME certified fabrication facility and UL Certified panel shop. AVANTech recently completed the contract for designing, manufacturing, and starting up the contaminated water system (SARRY) at Japan's damaged Fukushima Nuclear Power Site.

Babcock Services, Inc.

Contact: Phil Gallagher Booth #: 621
8113 W Quinault Ave, Kennewick, WA 99336
P: 509-737-0812
Email: pgallagher@babcockservices.com
Website: www.babcockservices.com

Babcock Services, Inc. is a small business specializing in providing high quality professional services to the nuclear industry. BSI also performs the Design / Fabrication / Operating of specialized volume reduction equipment. Our international client base includes government contractors to commercial nuclear power generators supporting Restart, Operations, Maintenance and Remediation projects.

Banda Group International, LLC

Contact: Tim Hall Booth #: 417
111 Congress Ave, Mail Code 463, Austin, TX 78701
P: 512-656-8018
Email: timh@bandagroupintl.com
Website: www.bandagroupintl.com

Banda Group International (BGI), LLC, a Veteran-owned, 8(a) Certified MBE is a world class technical and project management support services company supporting government and private sector clients around the globe. Founded in 2003, we provide specialized capabilities in safety management, safety programs, and systems. Headquartered in Chandler, AZ, with offices in Rio Rancho, NM and Austin, TX.

Barnhart Nuclear Services

Contact: Art Porter Booth #: 319
2163 Airways Blvd, Memphis, TN 38114
P: 901-775-3000
Email: aporter@barnhartcrane.com
Website: www.barnhartcrane.com

Barnhart has built an impressive nuclear project resumé. Our team of nuclear experts have backgrounds from both the construction and operations side of the nuclear industry. Barnhart's experience has brought the kind of innovative design and execution that makes money in reducing Critical Path components in containment.

Bartlett Services, Inc. - BRONZE SPONSOR

Contact: Lauren Buckman Booth #: 108
60 Industrial Park Rd, Plymouth, MA 02360
P: 508-591-1149 F: 508-591-1397
Email: lauren.buckman@bhienergy.com
Website: www.bartlettservices.com

A leading provider of radiation safety, professional and technical, D&D and environmental management solutions with over 28 years of experience serving government facilities and contractors. We offer complete project management and implementation, quality personnel, contamination control materials and other decontamination technologies to support our clients' needs.

Brokk

Contact: Tony Marlow Booth #: 200
1 Coral Bell Ct, Santa Fe, NM 87508
P: 1-505-699-8923 F: 1-480-287-8709
Email: tmarlow@brokkinc.com
Website: www.brokkinc.com

Brokk heavy duty remotely controlled machines are used worldwide in many challenging applications including; D&D, demolition, remote surveys, size reduction, sorting/handling radioactive waste. The operators complete multiple tasks at safe distances from high radiation or hazardous environments. Our machines feature remotely interchangeable attachments and can be customized to meet specific project requirements.

Burge Environmental

Contact: David Hoffman Booth #: 537
6100 South Maple Ave, Ste 114, Tempe, AZ 85283
P: 480-968-5141 F: 480-345-7633
Email: davidhoffman@burgenv.com
Website: www.burgenv.com

Burge Environmental Inc. is dedicated to the development and manufacturing of analytical instrumentation for the detection of environmental contaminants in groundwater, surface and industrial waters. The company has developed instrumentation for the low-level (below the drinking water standards) detection of the following contaminants: Technetium-99 Strontium-90 Uranium (uranyl ion) Tritium (under development) Trichloroethene Carbon tetrachloride Hexavalent chromium. The instrumentation research was funded by US Department of Energy STTR program. The instrumentation is currently being developed and tested at the Hanford Site in association with Pacific Northwest National Laboratory.

CABRERA SERVICES

Cabrera Services, Inc. - BRONZE SPONSOR

Contact: Shannan Ryll Booth #: 817
473 Silver Lane, East Hartford, CT 06118
P: 860-569-0095 F: 860-569-0277
Email: sryll@cabreraservices.com
Website: www.cabreraservices.com

Cabrera Services, Inc. is a SBA-certified small minority-owned business providing full-service environmental remediation services for hazardous, toxic, and radioactive waste (HTRW) sites. CABRERA specializes in radiological engineering and remediation, radioactive waste management, environmental engineering, MARSSIM/TRIAD survey design and implementation, on-site measurement & analysis, and MEC/UXO response and range support.

Carlsbad Department of Development

Contact: Jeff Campbell Booth #: 639
400-2 Cascades Ave, Ste 201, Carlsbad, NM 88220
P: 575-887-6562 F: 575-885-0818
Email: jcampbell@developcarlsbad.org
Website: www.developcarlsbad.org

The Carlsbad Department of Development (CDOD) is a private non-profit agency representing over 100 chief executive officers in industry, business and finance, the City of Carlsbad, Eddy County Board of Commissioners, New Mexico State University-Carlsbad, and others. The goal of the CDOD is to promote the economic and general welfare of the citizens of the City of Carlsbad and South Eddy County through job retention and creation by recruiting new industry, identifying new job opportunities, expanding and retaining existing business and diversifying our economy. The CDOD is your first contact for business assistance in Carlsbad and South Eddy County.

Cartwright Engineers

Contact: Bruce Lee Booth #: 927

9850 Havana St, Henderson, CO 80640
P: 303-369-6374 F: 303-853-3377
Email: bburns@casttrans.com
Website: www.casttrans.com

CAST Transportation is a motor carrier handling Heavy Haul, Hazmat, LL Waste, Flatbed, Lowboy & Chemical Tanker movements. Cast operates a Rail Transload Center from its tracks on the BNSF at Irondale Station (Denver, CO). Participant in the WIPP Program and has been a privately held company since 1948.

CDM

Contact: David W. Wallace Booth #: 409
800 Oak Ridge Tpke, Ste B-200, TN 37830
P: 865-425-5416 F: 865-481-3835
Email: wallacedw@cdmsmith.com
Website: cdmsmith.com

CDM Smith provides lasting and integrated solutions in water, environment, transportation, energy and facilities to public and private clients worldwide. As a full-service consulting, engineering, construction and operations firm, we deliver exceptional client service, quality results and enduring value across the entire project life cycle.

Central Research Laboratories

Contact: Jens Nestingen Booth #: 1031
3965 Pepin Ave, Red Wing, MN 55125
P: 651-388-3565 F: 651-385-2109
Email: j.nesting@centres.com
Website: www.centres.com

Central Research Laboratories designs and manufactures equipment and systems for the safe and efficient handling of hazardous materials in a remote environment. This includes telemanipulators and glove ports for dexterous handling and waste drum transfer systems for sealed repeatable transfers of materials across containment boundaries.

Ceradyne, Inc.

Contact: Elizabeth Utley Booth #: 421
3250 S 614 Rd, Quapaw, OK 74363
P: 918-673-2201 F: 918-673-2309
Email: inquiry@ceradyneboron.com
Website: www.ceradyne.com

Ceradyne, Inc. provides BORAL®, BorAluminum®, BORTEC® MMC, Enriched Iron Boride and BoroBond™ for wet and dry SNF storage, fresh fuel transport, neutron absorption, waste remediation and shielding. Strong technical expertise and ability to supply the Boron 10 isotope provides Ceradyne a unique position for fuel cycle and waste stream management.

CETCO

Contact: Allen Bullock Booth #: 609
2870 Forbs Ave, Hoffman Estates, IL 60192
P: 847-910-3141
Email: allen.bullock@cetco.com
Website: http://remediation.cetco.com

CETCO provides cost-effective engineered solutions to challenging environmental remediation projects worldwide used for in-situ and ex-situ treatment of contaminated sediments, solidification/stabilization of hazardous wastes, as well as systems for gas vapor mitigation.

CH2M HILL – PLATINUM SPONSOR

Contact: Ashley Rath Booth #: 723
9191 S. Jamaica St, Englewood, CO 80112
P: 720-286-2327 F: 720-286-9090
Email: ashley.rath@ch2m.com
Website: www.ch2m.com

CH2M HILL specializes in the management of complex nuclear programs and projects around the globe. Our experience includes more than two decades of managing and operating nuclear facilities and providing innovative clean-up and environmental remediation for commercial and government facilities and sites. CH2M HILL provides innovative clean up and closure solutions for the most contaminated sites in the US DOE nuclear weapons complex and in UK Nuclear Decommissioning sites, while successfully and safely delivering projects ahead of schedule and under budget.

Clauss Construction

Contact: Patrick Burke Booth #: 227
8956 Winter Gardens Blvd, Lakeside, CA 92040
P: 619-390-4940 F: 619-390-4944
Email: pburke@clausconstruction.com
Website: www.clausconstruction.com

Service Disabled Veteran Owned Small Business serving the DOE and DoD for over 20 years in all aspects of hazardous material remediation, heavy demolition, explosive demolition management, radiological cleanup, waste disposal and recycling/salvage.

Columbiana Hi Tech

Contact: Don Olson Booth #: 428
1802 Fairfax Rd, Greensboro, NC 27407
P: 336-852-5679
Email: dolson@chtnuclear.com
Website: www.chtnuclear.com

Columbiana Hi Tech, LLC (CHT) is a leading manufacturer and designer of nuclear fuel cycle packaging and is the world's largest manufacturer of front-end radioactive packaging for the nuclear fuel cycle, offering high quality packages for uranium hexafluoride (UF₆), uranium dioxide (UO₂), and reprocessed uranium and fuel bundle shipments. CHT is also a major supplier to the nuclear industry in the fabrication of containers and related products to transport and store spent nuclear fuel such as lead lined dry transfer casks, canister assemblies for MTR and TRIGA fuel, spent fuel cask lifting yoke assemblies, and specialized handling and storage equipment.

Commodore Advanced Sciences, Inc.

Contact: Walt Foutz Booth #: 124
9769 W 119th Dr, Ste 31, Broomfield, CO 80021
P: 303-421-1511 F: 303-463-4833
Email: walt@commodore.com
Website: www.commodore.com

Commodore Advanced Sciences is a wholly-owned subsidiary of Oasis Systems, with offices nationwide. Commodore specializes in waste treatment services targeting sodium-bearing waste, PCB waste and LLMW using the patented AMANDA and SET technologies. Commodore also provides environmental characterization and remediation services.

Container Products Corporation

Contact: Mike Lewis Booth #: 603
112 North College Rd, Wilmington, NC 28406
P: 910-392-6100 F: 910-392-6778
Email: quality@c-p-c.com
Website: www.c-p-c.com

Container Products Corporation has been providing containers, compactors and decontamination equipment to the nuclear industry since February, 1981. CPC is the largest and most experienced producer of LLW containers in the United States and its compactors and decontamination equipment are located throughout the world.

Container Technologies Industries, LLC - BRONZE SPONSOR

Contact: Scott Burchfield Booth #: 521
375 Marcum Pkwy, Helenwood, TN 37755
P: 423-569-2800 F: 423-569-2806
Email: sales@containertechnologies.com
Website: www.containertechnologies.com

Container Technologies leads the industry in the design, testing and manufacturing of IP-1, IP-II and 7A containers. ASME NQA-1 compliant and approved

for U.S. Government applications. AWS D1.1, D1.3 certified. Certified Welding Inspector (CWI) on staff.

Cutting Edge Services Corporation

Contact: Timothy Beckman Booth #: 418
1535 Old SR 74, Batavia, OH 45103
P: 513-388-0199 F: 513-732-1248
Email: Beckman@cuttingedgeservices.com
Website: www.cuttingedgeservices.com

Cutting Edge Services provides engineered solutions for cutting or drilling of concrete and metal structures. We design and fabricate special tools to augment our nuclear field services, including diamond wire cutting of SG sections and solid turbine shafts, diamond drilling of bioshield walls and water powered pole saw cutting of steel in pools.

Dade Moeller

Contact: John Fomous Booth #: 810

Radwaste Solutions is the magazine of radioactive waste management and facility remediation. In the United States, this business is centered on four industry subsets: (1) the Department of Energy's remediation of its weapons production and research facilities; (2) civilian radioactive waste activities; (3) nuclear utilities, and (4) nonpower, non-DOE activities. Articles discuss practical approaches and solutions to everyday problems and issues in all fields of radioactive waste management and environmental restoration. Included is coverage of the generation, handling, removal, treatment, cleanup, and disposal of radioactive (including mixed) waste. A complimentary January-April (double-issue) can be found in your WM2012 registration packet!

The US Department of Energy, National Nuclear Security Administration Nevada Site Office Environmental Management Program is responsible for addressing contamination from historic nuclear testing in Nevada, disposing low-level and mixed low-level radioactive waste from approved generators, and conducting environmental protection and compliance activities at the Nevada National Security Site.

US DOE Office of Environmental Management

Contact: Kay Rash Booth #: 120
1000 Independence Ave, Washington, DC 20585
P: 301-903-1426 F: 301-903-6161
Email: kay.rash@em.doe.gov

The mission of the Office of Environmental Management (EM) is to complete the safe cleanup of the environmental legacy brought about from five decades of nuclear weapons development and government-sponsored nuclear energy research. The EM program has made significant progress in shifting away from risk management to embracing a mission completion philosophy based on reducing risk and reducing environmental liability. As an established operating cleanup completion and risk reduction program, EM is demonstrating the importance of remaining steadfast to operating principles while staying focused on the mission. Through its accelerated cleanup approach, EM is remediating sites and reducing the risks of environmental contamination for future generations. EM's goal is to continue to reduce the environmental liability associated with the EM program, consistent with the ideals previously discussed above in the Mission section.

US DOE Office of Legacy Management

Westinghouse Electric Company offers a wide range of nuclear plant products and services to utilities throughout the world, including fuel, spent fuel management, service and maintenance, instrumentation and control, and advanced nuclear plant designs. Nearly 50 percent of the nuclear power plants in operation worldwide, and nearly 60 percent in the United States, are based on Westinghouse technology. Worldwide, the more than 15,000 employees of Westinghouse Electric Company continue to pioneer value-added engineering and services creating success for our customers in their increasingly demanding markets. Westinghouse provides comprehensive integrated services and solutions to the Decommissioning and Dismantling (D&D) and Waste Management industries. We have acquired extensive experience in the dismantling of nuclear installations from uranium mill plants to nuclear power plants. We provide state-of-the-art solutions for the treatment and handling of radioactive waste. And we offer proven solutions for the storage of low-, intermediate- and high-level waste. Westinghouse technology will help provide future generations with safe, clean and reliable electricity.
