

Nuclear Decommissioning Authority perspective

Making the Transition from Zero Accidents to Zero Incidents

Mark Lesinski, Executive Director, Delivery

February 2012

Our mission

“Deliver safe, sustainable and publicly acceptable solutions to the challenge of nuclear clean up and waste management.

This means never compromising on safety or security, taking full account of our social and environmental responsibilities, always seeking value for money for the taxpayer and actively engaging with stakeholders.”

Our mission

“Deliver **safe**, sustainable and publicly acceptable solutions to the challenge of nuclear clean up and waste management.

This means never compromising on safety or security, taking full account of our social and environmental responsibilities, always seeking value for money for the taxpayer and actively engaging with stakeholders.”
