

EXHIBITION AND MARKETPLACE

WM Symposia provides the world's largest exhibition for the management of radioactive waste material, featuring four days of access to the key companies your organization needs for success!

Located on the lower level of the Phoenix Convention Center West Building, the comprehensive technical exhibit showcases all aspects of products and services related to the nuclear waste industry. Areas of interest include protective clothing, remote/robotic handling, hazardous waste storage, transportation, diagnostic instrumentation, engineering design and construction, environmental laboratories, decontamination and decommissioning and environmental remediation.

Attendees to the conference are typically decision makers of large worldwide corporations and government procurement agencies.
