

# SRS Waste Program Update EFCOG WM Working Group

---

**John C. Gilmour**

Director, Solid Waste & F Area Operations

Savannah River Nuclear Solutions, LLC

March 6, 2014

# E Area Solid Waste Management Facility

# Accomplishments

- Remediation activities on legacy TRU complete
- Made 159 legacy TRU shipments to WIPP
- Disposed ~100 m<sup>3</sup> of MLLW
- Disposed ~5,000 m<sup>3</sup> of LLW
- Started disposal operations in new Engineered Trench

# FY14 Outlook

- Expected budget for year is \$47M
- Complete certification of remaining legacy TRU waste
- Complete shipment of mixed waste from legacy TRU
- Initiate RCRA closure of TRU Pad 16
- Continue shipping legacy TRU once WIPP reopens
  - ~10 TRUPACT-III shipments needed
  - ~60 TRUPACT-II shipments needed
  - ~55 Remote Handled 72-B shipments needed

# FY14 Challenges

- **Competing with Site Infrastructure for limited funds**
  - Disposition of excess chemical backlog
  - Relocation of LCNDA system to reclaim HW/MW storage pad
  - D&R of legacy TRU processing equipment in E Area
- **Maintaining qualified shipping resources during WIPP outage**

# FY15 Outlook

- Expected budget is \$43M
- Complete RCRA Closure of TRU Pad 16
- Complete legacy TRU shipments to WIPP
- Continue to compete with Infrastructure for funding
