

## **NAYGN & KTR**

**Felix Meissner – President**

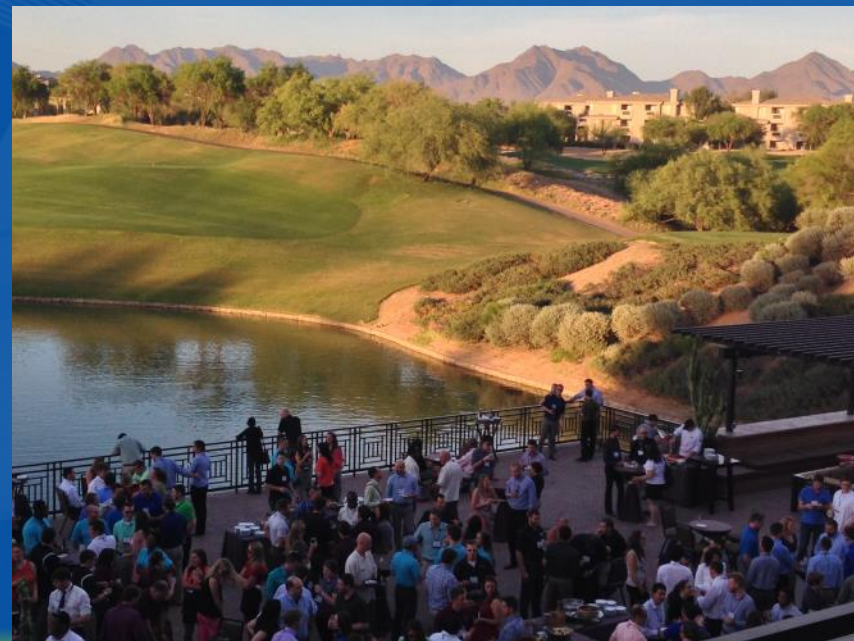

**North American Young Generation in Nuclear**

# Agenda

- NAYGN
- KT&R
- A Solution

# NAYGN

- Premier PD society for the young generation in Nuclear
- *Developing Leaders to Energize the Future of Nuclear*
- 110+ chapters in all areas of the industry
- 13k+ total members

## DID YOU KNOW?

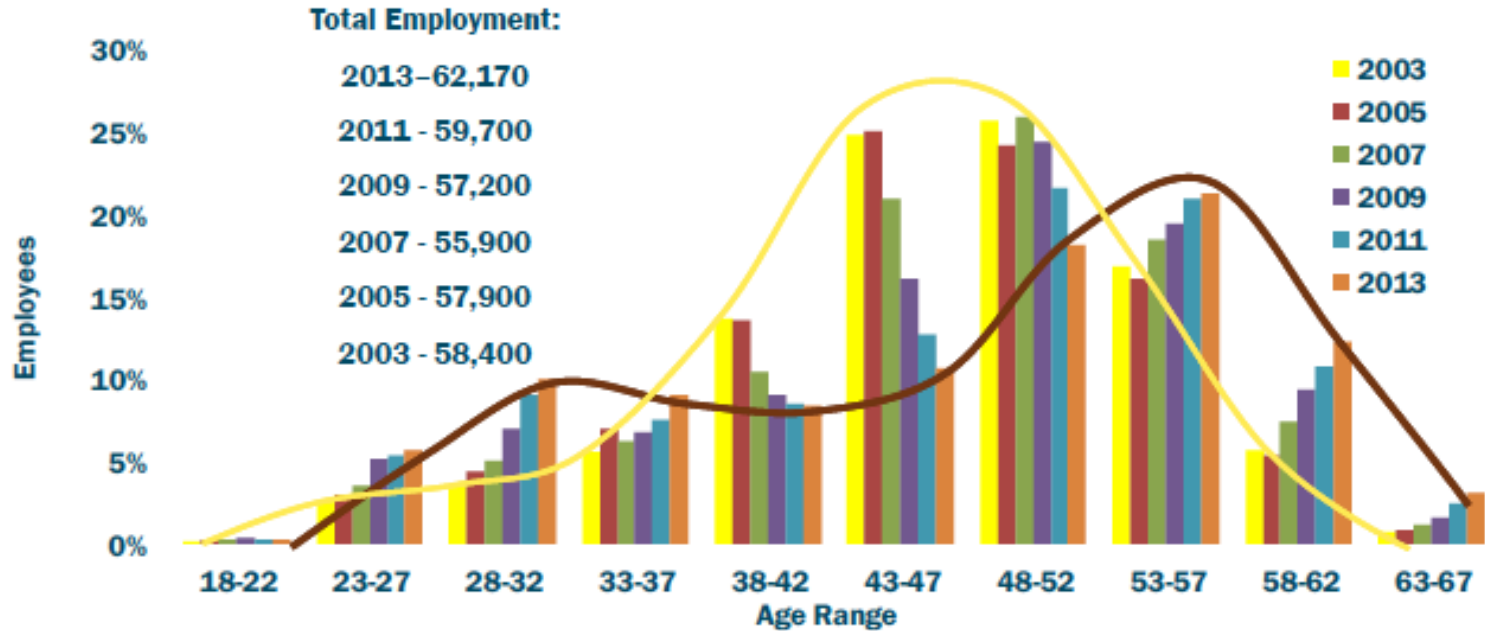

Less than 5 nuclear fuel pellets can generate enough energy to power an electric car around the circumference of the earth.

\*fuel contains 5% Uranium 235

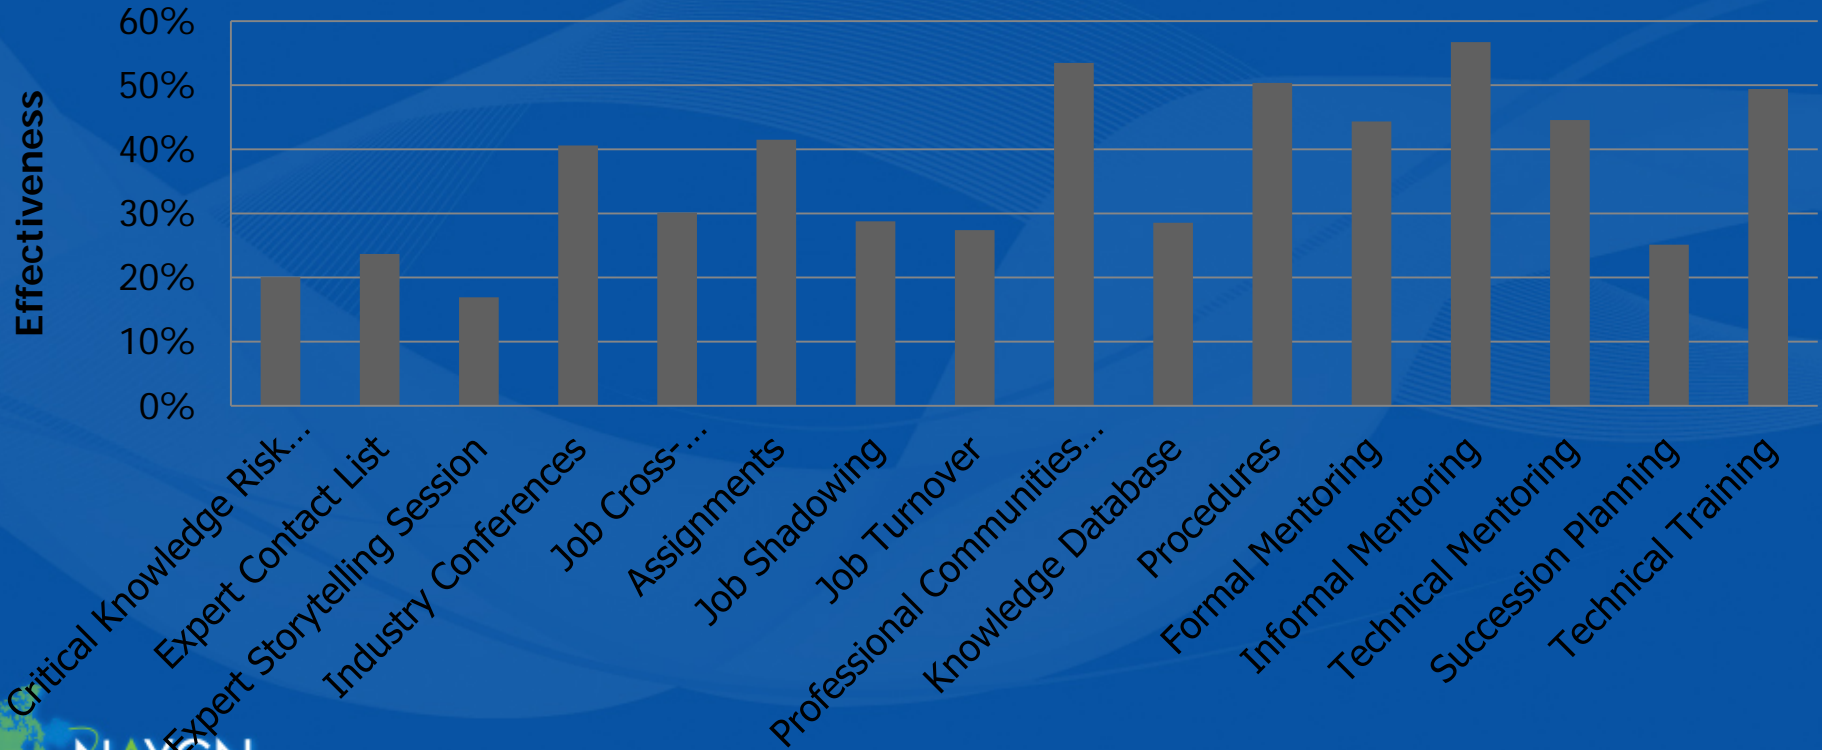

# Industry Today

# KT&R Today

Source: 2014 NAYGN Career Report ([Link](#))

# KT&R

- Knowledge transfer is a dialogue, a form of communication
- What makes for effective communication?
- How do SMEs communicate?
- How do “greenhorns” learn?

# Communication - What Works

- Young generation learns where to find knowledge, not the knowledge itself
- Both parties must agree to participate
- Requires involvement on a personal level

# Takeaways

- The KT&R need is real
- It's a dialogue, a communication
  - SMEs & organizations should make them available
  - Mentees should search for them

# A KTR Solution

- A person was driving along in their car, when suddenly...a tire blows
- What do they do?

# NAYGN's The Hub

- Industry wide KT&R platform
- Video tutorials & interactive OE
- Web based, online and distant mentoring
- Industry (NSIAC) backing to explore
- Steering committee being formed – Q1 '15
- Research complete, final proposal – Q1 '16
