

# WM2016 EXHIBITORS

## **AECOM**

Contact: Keith Wood  
Aiken, SC, USA  
P: 803-502-5710 E: keith.wood@aecom.com  
Website: www.aecom.com

**Booth #: 1100**  
**Diamond Sponsor**

AECOM is built to deliver a better world. A Fortune 500 firm, we design, build, finance and operate infrastructure assets for governments, businesses and organizations in more than 150 countries. As a fully integrated firm, we connect knowledge and experience across our global network of experts to help clients solve their most complex challenges. From infrastructure, to resilient communities and environments, to stable and secure nations, our work is transformative, differentiated and vital. See how we deliver at aecom.com.

## **AECOM**

Contact: Robert Bonner  
Warrington, United Kingdom  
P: +44(0)1925-854472 E: robert.bonner@aecom.com  
Website: www.aecom.com

**Booth #: 839**  
**UK Pavilion**

AECOM is a world leader in nuclear decommissioning, with the capability to support every stage of the project life cycle — from inception and design through construction, start-up and operation to decommissioning and closure. We have been managing the operations and clean-up of high hazard, complex nuclear sites for over 30 years. With over 150 site-years experience, we are responsible for managing annual expenditures of over £3.4billion on nuclear projects in the UK and US.

## **AGI Engineering, Inc.**

Contact: Alex Innes  
Stockton, CA, USA  
P: 209-939-9900 E: jay@agieng.com  
Website: www.agieng.com

**Table Top L**  
**Small Business Pavilion**

Design & manufacture of specialized extended reach tank cleaning systems.

## **Alliant Corporation**

Contact: Kirsten Perry  
Knoxville, TN, USA  
E: kperry@alliantcorp.com

**Booth #: 628**

## **Amec Foster Wheeler**

Contact: Michael Jacobvitz  
Petaluma, CA, USA  
P: 707-793-3800 E: michael.jacobvitz@amecfw.com  
Website: www.amecfw.com

**Booth #: 417 & 836**  
**Platinum Sponsor**  
**UK Pavilion**

From landmark remediation programs to local waste management projects, Amec Foster Wheeler's inter-disciplinary team develops and implements integrated solutions that incorporate innovative technologies to address complex radiological, hazardous, and multimedia contamination challenges. Amec Foster Wheeler helps clients move projects through cleanup and regulatory compliance to environmental excellence, adding a sustainability focus to our services to maximize benefits for mankind and the local/regional ecology. As one of the largest engineering, project management and consultancy firms in the world, Amec Foster Wheeler operates in nearly 55+ countries 40,000 employees from the Australian outback to the Arctic.

## **American Crane & Equipment Corporation**

**Booth #: 601**

Contact: Lisa Walleigh  
Douglassville, PA, USA  
P: 610-385-6061 x224  
E: lwalleigh@americancrane.com  
Website: www.americancrane.com

American Crane & Equipment Corporation is a leading provider of cranes, hoists, manipulators, and specialized lift systems. Customers include commercial nuclear plants, DOE facilities, DOE laboratories, and defense facilities. American Crane's recent focus has been supplying cranes and replacement trolleys/hoists for dry spent fuel storage and radioactive waste remediation. Critical lift cranes having enhanced crane control features are also being supplied for material handling of critical equipment. American Crane has an ASME NQA-1 and 10CFR50, Appendix B QA Program and maintains a full-time service department with capabilities to perform crane mechanical and controls upgrades. American Crane has the in-house capabilities to provide all the cranes needed for new nuclear power plant construction.

**ANTECH Corporation****Booth #: 712**

Contact: Robin McKay  
 Westminster, CO, USA  
 P: 303-430-8184 E: mckay.robin@antechcorp.com  
 Website: www.antech-inc.com

ANTECH designs and supplies assay equipment for measuring LLW and TRU waste and for safeguards measurements. ANTECH also provides on-site measurement services for LLW and TRU waste drums and boxes and for decontaminating and decommissioning TRU gloveboxes so that they can then be measured and disposed of as LLW.

**Applied Research Center - FIU Booth #: 409**

Contact: Walter Quintero  
 Miami, FL, USA  
 P: 305-348-5012 E: quinterw@fiu.edu  
 Website: www.fiu.edu

Florida International University's Applied Research Center is a university based research center located in Miami, Florida. Since 1995, ARC has supported DOE's environmental restoration mission by conducting applied research in key DOE-EM's technical areas such as Decontamination & Decommissioning, Waste Processing, and Soil & Groundwater. In 2007, DOE and FIU established the DOE-FIU Science & Technology Workforce Development Program; this unique program is designed to develop a pipeline of minority scientists and engineers students (called DOE Fellows) specifically trained and mentored to join federal or private sector workforce.

**Aquila Nuclear Engineering Ltd Booth #: 740****UK Pavilion**

Contact: Drew Corbett  
 Hampshire, England, United Kingdom  
 P: +44(0)1962-718390 E: DCorbett@aquilaeurope.eu  
 Website: www.aquilaeurope.eu

Aquila is wholly focused on the nuclear industry, providing engineered solutions for decommissioning, R&D, life extension, defense and new build markets.

Core categories include glovebox technology, shielded facilities, remote handling and transport packages.

Aquila is part of the Calder Group, a \$300m pan-European engineering and manufacturing company with ten operating subsidiaries in five countries. Operating in nuclear, nuclear medicines, defense, aerospace and construction markets, Calder are Europe's largest vertically integrated, lead processing and engineering company.

**Arcadis****Booth#: 528**

Contact: Cheryl Hurns  
 Highlands Ranch, CO, USA  
 E: cheryl.hurns@arcadis.com

Arcadis is one of the world's largest organizations providing comprehensive engineering, environmental and architectural services to federal clients worldwide. For over 75 years, we've delivered performance-based environmental solutions, premiere water management, energy and architectural expertise to fully meet federal demands. Our strong international presence includes 28,000 staff in 70 countries providing services worldwide. Our innovative, sustainable solutions provide value to support our clients' success in critical missions around the world.

**AREVA Federal Services****Booth #: 401  
Gold Sponsor**

Contact: Jan Phillips  
 Charlotte, NC, USA  
 P: 704-805-2405 E: janice.phillips@areva.com  
 Website: www.us.areva.com

AREVA in North America combines US and Canadian leadership to supply high added-value products and services to support the operation of the nuclear fleet. Globally, AREVA is present throughout the entire nuclear cycle, from uranium mining to used fuel recycling, including nuclear reactor design and operating services. AREVA is recognized by utilities around the world for its expertise, its skills in cutting-edge technologies, and its dedication to the highest level of safety. Through partnerships, the company is active in the renewable energy sector. AREVA Inc.'s 4,300 employees are helping build tomorrow's energy model: supplying ever safer, cleaner and more economical energy to the greatest number of people.

Follow us on Twitter: AREVAus.

**Arizona Energy Education Fund Coalition**

Contact: John Van De Beuken **Table Top C**  
 Tucson, AZ, USA **Small Business Pavilion**  
 E: john\_van\_de\_beuken@msn.com  
 Website: www.azedcoalition.org

The Arizona Energy-Education Fund Coalition is an assembly of stakeholders from the private sector, government, education and energy industries interested in supporting K-12 and universities through an enhanced program of recycling spent nuclear fuel and Monitored Retrieval Storage systems in Arizona.

**ARS Aleut Analytical, LLC Booth #: 718**

Contact: Virgene Ideker-Mulligan  
Port Allen, LA, USA  
P: 225-381-2991 E: vmulligan@amrad.com  
website: www.aleutcorp.com

ARS Aleut Analytical, LLC (AAA) provides Government and Commercial clients with full service laboratory capabilities to include radiochemistry, standard chemistry, Industrial Hygiene, and other specialty services. AAA operates laboratories located in Louisiana, Colorado and Alaska.

**ARS International, LLC Booth #: 715**

Contact: Kimberly Jack  
Port Allen, LA, USA  
P: 225-381-2991 E: kjack@amrad.com  
Website: www.amrad.com

ARS International is an Alaskan Native Corporation, Small Disadvantaged Business, with multiple 8(a) subsidiaries. Our umbrella of companies offers the following services: environmental remediation services, analytical services, mobile laboratory services, demolition/deactivation /decontamination services, health physicist services, hazardous waste management services, field sampling services, as well as additional environmental services.

**ARUP Booth #: 748**

Contact: Chi-Fung Tso  
London, United Kingdom  
P: +44-20-7636-1531 E: chi-fung.tso@arup.com  
Website: www.arup.com

**Atkins Booth #: 744**

Contact: Nigel Thornton  
London, United Kingdom  
E: nigel.thornton@atkinsglobal.com  
Website: www.atkinsglobal.com

Atkins' energy business is an international provider of high-end design and engineering for the nuclear, oil and gas, renewables and power sectors. We deliver innovative technical solutions for some of the industry's greatest challenges and have provided business-critical engineering solutions in the North American energy sector since the 1980's.

**Attention IT, Inc. Booth #: 710**

Contact: Jeanice Pratt  
Knoxville, TN, USA  
P: 865-769-8888 x400 E: jeanice@attentionit.com  
Website: www.attentionit.com

The eMWaste® Primary Suite is the only web-based COTS software that tracks hazardous, radioactive and mixed waste. eMWaste® provides electronic "cradle to grave" tracking of profiles, container certification, characterization, inventory, processing, treatment, overpack, shipping, and disposal operations. All this while keeping a full historical record of container movements, processes, parent/daughter processes, and shipping disposition of the container. eMWaste® is composed of nine suites and offers LIMS, Processor, Disposition, Document Control, Dispatch, Project Management, and Contract Management to our customers.

**Attention IT, LTD Booth # 846**

Contact: Dan Smith  
Warrington, United Kingdom  
P: +44(0)1925-320070 E: dsmith@attentionit.com

The eMWaste® G2 Primary Suite is the only web-based COTS software that tracks hazardous, radioactive and mixed waste. eMWaste® G2 provides electronic "cradle to grave" tracking of profiles, container certification, characterization, inventory, processing, treatment, overpack, shipping, and disposal operations. eMWaste® G2 keeps a full historical record of container movements, processes, parent/daughter processes, and shipping disposition of the container. eMWaste® G2 is composed of nine suites and offers LIMS, Processor, Disposition, Document Control, Dispatch, Project Management, and Contract Management to our customers.

**Augean PLC Booth #: 844**

Contact: Carol Earp  
Wetherby, United Kingdom  
P: +44(0)1937-844980 E: CarolEarp@augeanplc.com  
Website: www.augeanplc.com

Augean Radioactive Waste Services (RWS) is a leader in providing waste disposal services for Low Level Radioactive and Naturally Occurring Radioactive Material in the UK.

Providing a range of treatment and landfill processes to Site Licence, electricity generation facilities, North Sea oil and gas operators, medical facilities and certain industrial producers.

**AVANTech / DTS**

Contact: Gary A. Benda  
Columbia, SC, USA

P: 803-407-7171 E: GBenda@AVANTechInc.com  
Website: www.avantechinc.com

AVANTech, Inc. provides turn-key water processing services and systems and also can manage and process low-level radioactive and hazardous wastes. Technologies include demineralization, polymer solidification, filtration, ultrafiltration, reverse osmosis, dewatering, and drying. These are applied on a stand-alone basis, or combined to effect waste stream or pool cleanup, sludge collection, silica removal, boric acid recovery, and zero environmental release. AVANTech, with its DTS Division in Knoxville, also provides underwater systems and select ion specific media.

**Bluegrass Concrete Cutting Inc Booth #: 702**

Contact: Robert Hulick  
Greenville, AL, USA

P: 334-382-0200 E: bhulick@concretecutters.com  
Website: www.concretecutters.com

The industry leader in cutting concrete and metal structures, Bluegrass has participated as a subcontractor in every significant commercial decommissioning project in the US, and numerous DOE jobs. Using diamond wire technology on hundreds of projects, we have successfully cut and segmented reactor nozzles, reactor heads, large components, and bio-shield and containment walls. We also specialize in shaving contaminated concrete to required depths leaving the surface smooth enough for direct frisk.

**Brokk, Inc.****Booth #: 115**

Contact: Tony Marlow  
Monroe, WA, USA

P: 505-699-8923 E: tmarlow@brokkinc.com  
Website: www.brokk.com

Brokk heavy duty remotely operated machines are used worldwide in many challenging applications. These include; dismantling, decontamination, demolition, excavation, size reduction, radiation surveys, process operations, sorting and handling of radioactive waste.

Operators can remotely complete multiple tasks at safe distances away from high radiation areas or other hazardous environments. Brokk machines can deploy many different types of remotely interchangeable attachments and can be customized to meet specific project requirements.

Over 6,000 Brokk machines have been deployed and they have earned an excellent record of performance, ruggedness and reliability.

**BWX Technologies, Inc****Booth #: 1125**

Contact: Stephanie Decker  
Lynchburg, VA, USA

P: 434-522-6963 E: sadecker@bwxt.com  
Website: www.babcock.com

Headquartered in Lynchburg, Va., BWX Technologies, Inc. (BWXT) is a leading supplier of nuclear components and fuel to the US government; provides technical, management and site services to support governments in the operation of complex facilities and environmental remediation activities; and supplies precision manufactured components and services for the commercial nuclear power industry. BWXT has more than 5,200 employees and significant operations in Lynchburg, VA; Erwin, TN; Mount Vernon, IN; Euclid, OH; Barberton, OH; and Cambridge, Ontario, as well as more than a dozen US Department of Energy sites around the country.

**Cabrera Services Inc.****Booth #: 612**

Contact: Shannan Ryll  
East Hartford, CT, USA

P: 860-569-0095 E: sryll@cabreraservices.com  
Website: www.cabreraservices.com

Cabrera is a turnkey remediation and site closure company. Whether we provide health physics expertise, perform remediation, or integrate both to conduct turnkey remediation on a project, our understanding of the all elements of remediation, particularly for radiological cleanup, ensures technically sound solutions that expedite site closure for our clients.

**Camfil****Booth #: 732**

Contact: Arthur Soma  
Pickerington, OH, USA

P: 740-963-8623 E: art.soma@camfil.com  
Website: www.camfil.com

As the world leader in air filtration technology, Camfil offers state-of-the-art filtration solutions for industrial, nuclear, cleanrooms and high containment spaces. Camfil manufactures HEPA and ULPA filters with flows as high as 600 fpm; and adsorbers for removing gaseous contaminants. Camfil's highly-engineered filter housings and systems have reset the industry standard for high quality containment air filtration systems.

**Canal Barge Company****Booth #: 810**

Contact: Mike Little  
New Orleans, LA, USA  
P: 713-560-5618 E: mlittle@canalbarge.com  
Website: www.canalbarge.com

Founded in 1933, Canal Barge Company, Inc. is a privately owned, independent marine transportation company headquartered in New Orleans, Louisiana. Its fleet of 36 inland towboats and over 800 barges operate throughout the Inland Waterways System of the United States. In addition, their oceangoing deck barge fleet operates in all offshore waters of the Gulf of Mexico, on the Eastern Seaboard and West Coast, and internationally in Mexico, the Caribbean Sea, Central and South America, Europe, and West Africa.

The company is one of the most diverse marine transportation companies in the country. CBC moves products such as lube oils, black oils, edible oils, and petrochemicals in addition to coal, petroleum coke and crushed stone. It also transports refinery and power plant components, oil and gas exploration structures, military cargo's, and new or used nuclear components. The Canal Terminal Company division operates a state-of-the-art, multi-modal liquid storage terminal in the Chicago area, handling of asphalt, black oils and high-end chemicals. Its subsidiary Illinois Marine Towing is the largest independent towing and fleeting service on the Illinois River. Using our logistical experience, we develop customized shipping plans to meet our customers' specific needs.

**Canberra Industries****Booth #: 301  
Gold Sponsor**

Contact: Tammy Pattison  
Meriden, CT, USA  
P: 800-243-3955 E: tammy.pattison@canberra.com  
Website: www.canberra.com

Canberra is the leading supplier of innovation and cost-effective nuclear measurement solutions and services used to maintain safety of personnel, assess the health of nuclear facilities and safeguard the public and the environment. Applications for Canberra offerings include health physics, nuclear power operations, Radiation Monitoring Systems (RMS), nuclear safeguards, nuclear waste management, environmental radiochemistry and other areas.

**CAST Transportation Booth #: 700 & Semi B**

Contact: Blake Burns  
Henderson, CO, USA  
P: 303-534-6376 E: bburns@casttrans.com  
Website: www.casttrans.com

CAST Transportation is a motor carrier handling Heavy Haul, Hazmat, LL Waste, Flatbed, Lowboy & Chemical Tanker movements. CAST operates a Rail Transload Center from its tracks on the BNSF at Irondale Station (Denver, CO). Participant in the WIPP Program and has been a privately held company since 1948.

**CB&I****Booth #: 916  
Gold Sponsor**

Contact: Jack Clemmens  
The Woodlands, TX, USA  
P: 803-641-1180  
E: jack.clemmens@cbifederalservices.com  
Website: www.cbi.com

CB&I is the most complete energy infrastructure focused company in the world. With 125 years of experience and the expertise of approximately 53,000 employees, CB&I provides reliable solutions while maintaining a relentless focus on safety and an uncompromising standard of quality.

As one of the most complete providers of a wide range of services including design, engineering, construction, fabrication, maintenance and environmental services, no project is too big for CB&I. Our timely and cost-effective solutions not only satisfy our customers' needs, but also improve the quality of life for people around the world.

**CH2M****Booth #: 823  
Platinum Sponsor**

Contact: Katie Warner  
Englewood, CO, USA  
P: 720-286-5632 E: katelyn.warner@ch2m.com  
Website: www.ch2m.com

CH2M specializes in the operations and management of complex nuclear programs and projects around the globe. CH2M provides innovative clean up, environmental remediation and closure solutions for commercial and government nuclear facilities and sites in the US, UK, and Canada, while safely delivering projects ahead of schedule and under budget.

**Columbiana Hi Tech****Booth #: 407**

Contact: Laura Alamillo

Kernersville, NC, USA

P: 336-497-3600 E: lamillo@chtnuclear.com

Website: www.chtnuclear.com

Columbiana Hi Tech (CHT) is a leading manufacturer and designer of nuclear fuel cycle packaging. CHT is the world's largest manufacturer of front-end radioactive packaging and a major fabricator of containers and related products to transport and store spent nuclear fuel.

**Commercial Vehicle Safety Alliance**

Contact: Larry Stern

**Booth #: 319**

Greenbelt, MD, USA

P: 703-786-8422 E: lstern2013@gmail.com

Website: www.cvsa.org

Commercial Vehicle Safety Alliance (CVSA) mission is to promote international commercial motor vehicle safety and security by providing leadership to enforcement, industry, and policy makers. CVSA's North American Level VI training and inspection program is for transuranic waste and highway route controlled quantities of radioactive material.

**Container Products Corporation Booth #: 605**

Contact: Dwight Campbell

Wilmington, NC, USA

P: 910-392-6100 E: Dwight@C-P-C.com

Website: www.c-p-c.net

Container Products Corporation has been providing containers, compactors and decontamination equipment to the nuclear industry since February, 1981. CPC is the largest and most experienced producer of LLW containers in the US and its compactors and decontamination equipment are located throughout the world.

**Container Technologies Industries, LLC**

Contact: Steve Fielden

**Booth #: 925**

Helenwood, TN, USA

P: 423-569-2800 x24 E: sfielden@ctifab.com

Website: www.containertechnologies.com

Container Technologies (CTI) is a certified HubZone Small Business. Audited NQA-1 metal fabricator serving DOE, DOD, Power Generators, and commercial customers in the US, Canada and other countries. CTI has been in business for 17 years and offers design, testing, certification, and fabrication of containers and structural components. CTI offers both physical and FEA testing (using LS DYNA software). CTI has been nominated by CNS Y-12 for a national small

business award and has numerous commendations from our customers in the past several years.

**Croft Associates****Booth #: 738**

Contact: Mark Janicki

**UK Pavilion**

Abingdon, Oxon, United Kingdom

P: +44(0)1865-407740 E: mark.janicki@croftltd.com

Website: www.croftltd.com

**Cutting Edge Services Corporation**

Contact: Lisa Craig

**Booth #: 531**

Batavia, OH, USA

P: 513-388-0199 E: lisa@cuttingedgeservices.com

Website: www.cuttingedgeservices.com

Cutting Edge Services provides engineered solutions for the cutting or drilling of concrete and metal structures. We design and fabricate special tools to augment our nuclear field services, including diamond wire cutting of SG sections and solid turbine shafts, diamond drilling of bioshield walls and water powered pole saw cutting of steel in pools.

**Dade Moeller****Booth #: 910**

Contact: Krista Alley

Richland, WA, USA

P: 509-942-3638 E: krista.alley@moellerinc.com

Website: www.moellerinc.com

Dade Moeller provides a full range of professional and technical services to Federal, state and commercial clients in support of nuclear, radiological, and environmental operations. With 11 locations nationwide, our staff is recognized for expertise and proven performance in radiation/nuclear services, occupational safety, environmental protection, and safety training.

**Take advantage of the new amenities on the WM2016 show floor:**

- **Charging Tables** – located throughout the show floor to make working more convenient.
- **Panel Zone** – take advantage of the sessions available to all attendees.
- **Demo Zone** – learn about industry products as you view live demonstrations.
- **Concession Stand** – grab a bite to eat before visiting with the exhibitors.
- **Concierge & Information Booth** – better your conference experience and explore Phoenix.

**DAHER-TLI****Booth #: 506**

Contact: Lauren Haas  
Fulton, MD, USA  
P: 301-421-4324 E: lhaas@tliusa.com  
Website: www.tliusa.com

DAHER-TLI, the North American Nuclear subsidiary of DAHER, provides turnkey solutions to the front and back-end sectors of the nuclear fuel cycle. DAHER designs and provides products and services based on its comprehensive portfolio of expertise engineering, packaging, transport and logistics, waste treatment, characterization, volume reduction, etc.

DAHER is a tier-1 equipment supplier to the high-technology industries. Created in 1863, DAHER is an international group present in 12 countries across the world, and generates over 1 Billion dollars in turnover annually.

**Dedicated Nuclear Solutions Booth #: 717**

Contact: Gregory Jones  
Aiken, SC, USA  
P: 803-502-9977 E: greg.jones@urs.com

Dedicated Nuclear Solutions is an alliance of leading industry firms providing safety related material and services including commercial grade dedication, equipment qualification (e.g. seismic, thermal aging), reverse engineering, and custom fabrication. DNS can provide electrical and electronic fabrication and qualification and specializes in digital controls. DNS also provides dedicated construction commodity items, including plate, steel shapes, piping, pipe fittings, valves, and virtually any needed item for safety application.

**DE-STA-CO, CRL****Booth #: 223**

Contact: Kristen Fairbrother  
Auburn Hills, MI, USA  
P: 248-836-6674 E: kfairbrother@destaco.com  
Website: www.destaco.com

**Diversified Metal Products, Inc Booth #: 728**

Contact: Nathan McMasters  
Idaho Falls, ID, USA  
P: 208-529-9655 E: NathanM@diversifiedmetal.com  
Website: www.diversifiedmetal.com

Diversified Metal Products provides fabricating services to the nuclear industry. Our 60,000 sq. ft. manufacturing facility and highly trained staff have the ability to handle any project. Our attention to quality, and NQA-1 adherence, has been verified by the industry leading DOE Prime Contractors.

**Dufrane Nuclear Shielding, Inc. Table Top G**

Contact: Tim Tarbox **Small Business Pavilion**  
Winsted, CT, USA  
P: 860-379-2318 E: tarbox@dufrane.com  
Website: www.dufrane.com

Dufrane Nuclear is a pioneer in the industry of radiation shielding and radioactive handling and NQA-1 compliant.

**Eastern Technologies, Inc. Booth #: 324**

Contact: Benjamin McWaters  
Ashford, AL, USA  
P: 334-899-4351 E: bmcwaters@orex.com  
Website: www.orex.com

Eastern Technologies Incorporated (ETI) is uniquely positioned to provide solutions to all your protective clothing needs. With the continued advancement of our OREX line of protective clothing and related products, ETI also has the ability to provide state of the art single use garments that far exceed industry standard. The revolutionary OREX Ultra coveralls have made possible historically low personnel contaminations at several nuclear power plants over the past 12 months. ETI also operates the most technologically advanced radiological laundry in the world.

**ECC****Booth #: 705**

Contact: Roland Moreau  
Burlingame, CA, USA  
P: 650-347-1555 E: RMoreau@ecc.net  
Website: www.ecc.net

An employee-owned business founded in 1985, ECC delivers high quality, comprehensive, and competitive design-build, construction, environmental, energy, closure, munitions response, and international development solutions to the challenges facing our government clients. ECC has demonstrated the technical and managerial breadth and expertise to complete a variety of large-scale, concurrent projects across the globe.

**EKSORB LTD****Booth #: 806**

Contact: Igor Voinov  
Ekaterinburg, Sverdlovsk, Russian Federation  
P: 007-343-371-25-30 E: voinov@renecol.com  
Website: www.eksorb.com

EKSORB develops and manufactures highly selective sorbents for liquid radioactive wastes. We have created products and technologies that lower the cost of waste treatment and disposal. Our effective sorbents for selection of Cs, Sr, Co, Mn radionuclides are used by leading waste

management companies in the world. We have developed COREBRICK technology for conditioning of liquid radioactive wastes and their safe storage. Eksorb also specializes in polymer solidification of spent ion exchange resins.

**Enercon Services, Inc. Booth #: 624**

Contact: Wendy Lambert  
Oak Ridge, TN, USA  
P: 865-220-7901 x102 E: wlambert@enercon.com  
Website: www.enercon.com

ENERCON is a leading engineering, licensing, and environmental consistently ranking high in several Engineering News-Record lists. An employee-owned company, our culture drives us to provide superior customer service as individual owners. ENERCON, along with its wholly owned subsidiaries Talisman, Tri-County Engineering, and Enercon Federal Services, Inc., has an outstanding reputation with providing a wide variety of services including: multi-discipline engineering; decommissioning; environmental remediation and consulting; radiologic safety and industrial health; licensing and permitting; and facility siting and construction.

**Energy, Technology and Environmental Business Association Booth #: 321**

Contact: Linda Short  
Oak Ridge, TN, USA  
P: 865-591-8776 E: linda@eteba.org  
Website: www.eteba.org

The Energy Technology and Environmental Business Association (ETEBA) is a non-profit trade association representing more than 250 small, large and mid-sized companies that provide environmental, technology, energy, engineering, construction and related services to government and commercial clients. Our mission is to promote the success of our members by fostering market understanding, identifying business opportunities and advocating for our common interests.

**EnergySolutions**

**Booth #: 801  
Platinum Sponsor**

Contact: Mark Walker  
Salt Lake City, UT, USA  
P: 801-649-2194 E: mwalker@energysolutions.com  
Website: www.energysolutions.com

EnergySolutions is a leading provider of specialized technology based nuclear services to government and commercial customers. We are committed to environmental protection, energy independence and the nuclear industry. Our services include engineering, in-plant operations, outsourced specialty services, spent nuclear fuel management, decontamination and decommissioning, logistics, transportation processing and disposal.

**Energysteel**

**Table Top B  
Small Business Pavilion**

Contact: David Jaumotte  
Lapeer, MI, USA

Rockville, MD, USA **Bronze Sponsor**  
P: 301-354-1715 E: elilienfeld@accessintel.com  
Website: www.exchangemonitor.com

ExchangeMonitor Publications & Forums, founded by the late Edward Helminski, was acquired by Access Intelligence, LLC in March 2015. ExchangeMonitor publishes professional newsletters and creates, manages and sponsors forums, colloquiums and workshops to facilitate an exchange of views and information among government officials, private industry executives, non-governmental organizations and other entities on critical national and international programs and policies.

### **Federal Engineers and Constructors**

Contact: Richard French **Booth #: 107**  
Richland, WA, USA  
P: 509-375-1608 E: rfrenchjr@feandc.com  
Website: www.feandc.com

FE&C is a full-service construction and environmental remediation small business which has made a conscious decision to specialize in work that is highly technical and highly hazardous. With one of the best safety records in the industry and a fully approved and implemented NQA-1 program, FE&C offers services to both government and commercial clients. Our work is focused on four key services: hazardous and nuclear remediation; deactivation, decontamination, decommissioning and demolition (D4, or D&D); government and industrial construction, and engineering and technical services.

### **Fluor **Booth #: 1019****

Contact: Katy Alley **Diamond Sponsor**  
Greenville, SC, USA  
P: 864-281-6026 E: kathy.alley@fluor.com  
Website: www.fluor.com

Fluor is a global leader in engineering, procurement, construction, maintenance, and project management. Active across six continents, we work with governments and multinational companies to design, build, and maintain the world's most complex projects.

Fluor's government service business dates back to the Manhattan Project. It continues today with some of the most challenging missions in the world. We provide nuclear operations, waste management, site management and operations, environmental remediation, and laboratory

management to the US Department of Energy, as well as the UK's Nuclear Decommissioning Authority and the Canadian government. Among our active projects, we are managing the decommissioning of the world's largest gaseous diffusion plant and also the most significant national laboratory for cleanup and D&D technology development within the DOE complex.

Fluor's experience, flexibility, responsiveness, and commitment to integrity, performance, and safety result in unparalleled service delivery. We are a proud partner in our customers' mission success.

### **GE Hitachi Nuclear Energy / Hitachi-GE Nuclear Energy **Booth #: 521****

Contact: Gregg Schneider  
Wilmington, NC, USA  
P: 770-906-7376 E: gregg.schneider@ge.com

GE Hitachi Nuclear Energy (GEH) and Hitachi GE Nuclear Energy (HGNE) are world-leading providers of advanced reactor technology, nuclear fuel and services. Created by GE and Hitachi to serve the global nuclear industry, the global nuclear alliance executes a single, strategic vision to create a broader portfolio of solutions, expanding its capabilities for new reactor and service opportunities. The alliance offers customers around the world the technological leadership required to effectively enhance reactor performance, power output and safety.

### **GEL Laboratories, LLC **Booth #: 804****

Contact: Bob Seyer  
Knoxville, TN, USA  
P: 865-599-1175 E: bobseyer@mindspring.com  
Website: www.gel.com

Founded in 1981, our client base includes some of the largest industrial manufacturers in the Southeast, 72 US commercial nuclear sites, fifteen Department of Energy sites, thirteen Army Corps of Engineer (USACE) Districts, the US Navy and Air Force. GEL provides these clients with customized analytical chemistry services including environmental monitoring, RI/FS, RCRA investigation, NPDES analysis, hazardous and mixed waste characterization, bioassay, decommissioning and remediation closure analysis. Additionally, we perform full Part 61 and Energy Solutions Clive characterization services on samples with contact doses rates up to 600 mR/hr.

**Geotech Computer Systems      Table Top F****Contact: Toni Rich      Small Business Pavilion**

Centennial, CO, USA

P: 303-740-1999 E: trich@geotech.com

Geotech is a leader in database management software for environmental, mining, petroleum, agriculture, and many other industries. Geotech was established in 1986 by Dr. David Rich. We are a privately held woman-owned small business. We sell commercial software for managing environmental quality data, such as lab and field data, especially chemical, biologic, and radiologic data. Our clients praise our excellent software, service and technical support.

**General Plastics Manufacturing Co**

Contact: Kris Hsin

**Booth #: 632**

Tacoma, WA, USA

P: 253-473-5000 E: kris\_hsin@generalplastics.com

Website: www.generalplastics.com

General Plastics Manufacturing Company's FR-3700 crash and fire protection foams are recognized by specifying agencies as being one of the best solutions for the protection of hazardous payloads. The FR-3700 formulation is designed to allow predictable impact-absorption performance under dynamic loading, while providing an intumescent char layer that insulates and protects hazardous materials, even when exposed to pool-fire conditions.

**Global Emergency Resources      Booth #: 527**

Contact: Stan Kuzia, Jr.

Augusta, GA, USA

E: stan.kuzia@ger911.com

Website: www.ger911.com

Global Emergency Resources specializes in software development and systems integration to create a Common Operating Picture and Situational Awareness through threat and predictive modeling tools and individual and asset tracking during emergency and daily operations. Since 2003, GER has successfully integrated systems for a wide variety of industries at the local, state, regional, and national levels. From the initial planning stages through development, installation, training, exercises, and drills, GER provides true systems integration and implementation.

**GoldSim Technology Group LLC      Booth #: 818**

Contact: Rick Kossik

Issaquah, WA, USA

P: 425-295-6985 E: OAdministrator@goldsim.com

Website: www.goldsim.com

GoldSim is the premier tool for carrying out probabilistic performance assessments of proposed and existing radioactive waste management sites, and is used by over 600 organizations worldwide. GoldSim supports decision and risk analysis by simulating future performance while quantitatively representing the uncertainty and risks inherent in all complex systems.

**Hot Cell Services****Booth #: 535**

Contact: Zbigniew Tomalik

Kent, WA, USA

P: 253-854-4945 E: weingibz@hotmail.com

Website: www.hotcell.com

Hot Cell Services is the worldwide leader in safe viewing solutions for the Nuclear and Medical Industries. We manufacture Radiation Shielding Windows, Glove Box Windows, Lead Glass Slabs and Bricks, Radiation Gaskets and supplies. We offer lifetime support of our products with engineering, consulting, extraction, installation, maintenance, refurbishment, inspection and diagnosis services.

**I.C.E. Service Group, Inc.****Booth #: 1119**

Contact: Dennis Morgan II

Ambridge, PA, USA

P: 724-266-7580 E: dmorgan@iceservicegroup.com

Website: www.iceservicegroup.com

ICE provides packaging, transportation, logistical support and waste management services for both commercial and government clients. ICE utilizes a multi-modal transportation approach including; rail, truck and marine conveyances. ICE specializes in handling low level radioactive waste, RCRA hazardous waste, TSCA/PCB waste, non-hazardous waste, hazardous materials and equipment and machinery. Our Site Services Group provides on-site services including completion of waste profiles, design and fabrication of custom transload facilities and custom soft sided and steel transportation packages and staff augmentation. Our Equipment and Machinery Group handles the loading, blocking / bracing and transportation of heavy and over-dimensional equipment and machinery. All work is performed economically in a safe manner and under our NQA-1 Program.

**In-Place Machining Company      Booth #: 526**

Contact: Jonathan Eder  
Milwaukee, WI, USA  
P: 414-562-2000 E: JEder@inplace.com  
Website: www.inplace.com

In-Place Machining Company designs and develops specialized machining systems and fixtures for the nuclear industry, especially those used for on-site machining and D&D applications. We also have a 160,000 gallon underwater testing facility with more than 42' of overhead crane lift height. Our expertise includes mechanical, electrical, and software engineering, as well as a dedicated 100,000 sq. ft. manufacturing facility with complete in-house machining, assembly and testing capabilities. With almost 100 employees in three locations, IPM is ready to help with your next on-site machining or D&D project.

Contact: Kim Monti  
Bedford, MA, USA  
P: 505-590-0300 E: kmonti@irobot.com  
Website: www.irobot.com

iRobot – Defense & Security: for standard operations, hazardous material handling, and operations conducted in confined spaces, the iRobot family unmanned ground vehicles offer cost-savings capabilities that protect your work force and increase efficiency. The robots are equipped with numerous cameras for thermal imaging or low-light and dark environments, strong arms and manipulators, and combined with better-than-human auditory capabilities, these robots perform in-depth inspections, investigations, or material handling operations.

With more than 20 years of leadership in the robot industry and more than 10 million robots in use worldwide, iRobot remains committed to building robots that improve the quality of life and safety standards worldwide.

**ISO-Pacific Nuclear Assay Systems**

Contact: Sheri Michaelis      **Booth #: 814**  
Richland, WA, USA  
P: 509-375-0100 E: admin@isopacific.net  
Website: www.isopacific.net

ISO-PACIFIC is a green environmental remediation firm specializing in the physical separation of radiologically contaminated soil fractions from otherwise clean soil. Known as soil sorting, our volume reduction service can result in huge savings in the deposition and disposal of radioactive soil waste stocks.

**James Fisher Technologies      Booth #: 631**

Contact: Scott Adams  
Longmont, CO, USA  
P: 720-408-0100 E: scott.adams@jftechgroup.com  
Website: www.jftechgroup.com

James Fisher Technologies (JFT) is a reputable provider of remote solutions, specialty engineering, and technical services for applications within hazardous environments or with high integrity requirements. As the US subsidiary of James Fisher Nuclear and part of James Fisher and Sons plc, JFT has a heritage that dates back over 165 years with a vision to grow by providing our customers with valuable solutions that ensure the safety of their workforce and enable the successful completion of the task at hand. As a ground-breaking and rapidly expanding company, our highly trained staff and enduring heritage enable us to provide solutions to the most demanding operational and technical challenges faced by our customers.

**Joseph Oat Corporation      Booth #: 711**

Contact: Crystal Harrington  
Camden, NJ, USA  
P: 856-541-2900 x216 E: charrington@josephoat.com  
Website: www.josephoat.com

Joseph Oat Corporation is a world renowned designer and fabricator of pressure vessels, waste canisters, reactors, heat exchangers, and other specialty items for the nuclear power, radwaste, chem/petrochemical, and other industries. Family owned and operated since 1788, the company has gained its reputation by providing high quality equipment in a great variety of alloys for some of the most demanding and critical applications, including safety related and "N" stamped equipment.

**Kurion, Inc.** **Booth #: 811**  
Contact: Tracy Johnson **Diamond Sponsor**  
Richland, WA, USA **Post Foundation Sponsor**  
P: 509-737-1377 E: tjohnson@kurion.com  
Website: www.kurion.com

Kurion is a clean energy company that creates technological solutions that minimize and stabilize nuclear and hazardous waste for safe, secure and permanent disposal.

Las Vegas, NV, USA  
P: 702-493-5363  
E: jrl@longenecker-associates.com  
Website: www.longenecker-associates.com

Longenecker & Associates, Inc. (L&A) specializes in addressing management, engineering, energy, environmental and regulatory issues. L&A has a proven record of helping clients find and resolve problems before they become significant and costly. L&A's expertise includes project management, performance improvement, regulatory compliance, independent assessments, quality assurance support, business development, and strategic planning.

**Major Tool & Machine, Inc.** **Booth #: 615**  
Contact: Joel Manship  
Indianapolis, IN, USA  
P: 317-917-2626 E: jmanship@majortool.com  
Website: www.majortool.com

Major Tool and Machine provides the nuclear marketplace with best value, turnkey, engineering, fabrication, machining, assembly and testing services. Our extraordinary capability, capacity and experience are driven by our commitment to quality assurance. This is evidenced through our ASME N, NPT, N3, NS, U and U2 certifications. In addition, our Nuclear Quality Assurance Program is

audited to NQA-1, 10CFR21, 10CFR50 part B, 10CFR71 subpart H, 10 CFR72 subpart G and 10CFR830 compliance. Our combined strengths of outstanding program management, unparalleled capability, and uncompromising quality assurance provide our customers with the major difference.

**Marshallton Research Laboratories, Inc**  
Contact: Arthur M. Foster **Booth #: 1024**  
King, NC, USA  
P: 336-983-2131 E: marshallton@windstream.net  
Website: www.marshalltonlabs.com

Marshallton manufactures specialty chemicals for remediation and recycling in the nuclear energy industry. These include MAXCalix, Cs-7SB solvent modifier, and guanidine suppressors, key components for cesium removal. Also available extractants and solvents used in nuclear fuel cycle R&D. Custom synthesis, custom formulation: grams to 100's of kilograms. Concept through commercialization.

**Mega-Tech Services, LLC** **Booth #: 1113**  
Contact: Deanna Bowen  
Mechanicsville, VA, USA  
P: 804-789-1577 E: dbowen@mega-techservices.biz  
Website: www.mega-techservices.biz

Mega-Tech Services, LLC provides a complete line of high pressure hydraulic tools including guillotine cutters, scissor cutters, crushers, crimpers, pipe punches, sampling, spreaders, and grapples. We offer extensive expertise in specialty or custom tooling applications for nuclear maintenance and decommissioning projects. Mega-Tech Services, LLC is a woman-owned, small business providing services to the nuclear industry in both domestic and international markets for over 20 years.

**Metal Solutions Design & Fabrication, LLC**  
Contact: Kathy Pugh **Booth #: 411**  
Dayton, KY, USA  
P: 859-282-5000 E: kathyp@msdf1.com  
Website: www.msdf1.com

Metal Solutions is a full service fabrication company specializing in the design, testing and manufacturing of IP-1, IP-2, IP-3 and 7A type A containers. Our staff is familiar with the specific needs of 49 CFR and NNSW WAC. We operate under a NQA-1 QA program and certify our welders to AWS D1.1 & D1.3

### **Mobile Characterization Services, LLC**

Contact: Eric Pennala **Booth #: 1138**  
Albuquerque, NM, USA  
P: 505-433-3790 E: epennala@canberra.com

MCS is a joint venture partnership of Canberra Industries, Pajarito Scientific Corporation, and V. J. Technologies specializing in mobile characterization of TRU and LL Waste using real-time radiography and non-destructive assay technologies. MCS is currently certified at multiple sites throughout the complex and has characterized over 218,000 containers for shipment to WIPP and other repositories.

### **NAC International Booth #: 509**

Contact: Ellen O'Shea  
Norcross, GA, USA  
P: 678-328-1221 E: eoshea@nacintl.com  
Website: www.nacintl.com

NAC International (NAC) is an industry-leading provider of engineering and nuclear fuel management solutions for nuclear facility operators, fuel cycle companies and government agencies. The company offers a proven process for the design, licensing and deployment of innovative technologies to store, transport and manage nuclear materials, including high level waste and spent fuel. Our professional staff possesses unsurpassed industry knowledge and experience, necessary for today's demanding requirements for nuclear fuel cycle projects and performance. NAC serves more than 200 customers and supports a host of diverse projects.

### **National Nuclear Laboratory Booth #: 940 UK Pavilion**

Contact: Keith Miller  
Birchwood Park, United Kingdom  
P: +44(0)1925-289-960 E:  
keith.x.miller@nnl.co.uk  
Website: www.nnl.co.uk

The UK's National Nuclear Laboratory (NNL) offers a breadth of technical products and services covering the complete nuclear fuel cycle, from fuel manufacture and power generation to reprocessing, waste treatment and disposal. We operate from six sites in Cumbria, Lancashire, Cheshire, Gloucestershire and Oxfordshire, although most of our work is focused around our sites in the North West of England, and we are the second biggest industrial employer in West Cumbria.

With over 10,000 man years of nuclear experience across the fuel cycle, coupled with world-leading

nuclear R&D facilities, we deliver the experts and technologies that ensure the UK nuclear industry operates safely, efficiently and cost effectively.

### **Navarro Research and Engineering, Inc. Booth #: 431 Bronze Sponsor**

Contact: Sandra Todoro  
Oak Ridge, TN, USA  
P: 865-220-9650 E: todoro@navarro-inc.com  
Website: www.navarro-inc.com

Navarro is a premier contractor for the Department of Energy, the National Nuclear Security Administration, the National Aeronautics and Space Administration, and the Department of Defense providing environmental, renewable energy and energy efficiency, nuclear, information technology, and quality and safety services. Navarro, a woman-owned small disadvantaged business, has over 400 employees working in fourteen offices and twenty-three project locations nationwide.

### **New York Blower Company/SSM Industries Booth #: 602**

Contact: Margaret Wood  
Willowbrook, IL, USA  
P: 630-794-5725 E: mwood@nyb.com  
Website: www.nyb.com

New York Blower is a world leader in the industrial and OEM marketplace. Together with SSM Industries, they can provide customized fans to these markets, specializing in engineered and high temperature applications.

### **Nuclear Safety & Technology Services**

Contact: Brian Matthews **Booth #: 603**  
Las Vegas, NV, USA  
P: 702-942-3260 E: brian.matthews@ns-ts.com  
Website: www.ns-ts.com

NSTS is a next generation nuclear services company founded to support the existing nuclear infrastructure as well as supporting the development and deployment of new nuclear technologies that are essential to meeting our future energy needs in a safe, environmentally responsible and sustainable manner. Equally important to this charter are the solutions and innovations that are needed to address the challenges presented from decommissioning legacy nuclear facilities effectively, efficiently, and in a safe and socially responsible framework. With significant experience and track record in each of these areas, NSTS is committed to providing exceptional service and quality to clients engaged in these important areas.

### **Nuclear Waste Partnership Booth #: 1134**

Contact: Rose Scott  
Carlsbad, NM, USA  
P: 575-234-7512 E: Rose.Scott@wipp.ws  
Website: www.wipp.ws

The US DOE Waste Isolation Pilot Plant, (WIPP) became the nation's first operating underground repository for radioactive defense wastes in 1999. The WIPP facility, located in southeastern New Mexico, was designed for permanent disposal of radioactive transuranic waste, the byproduct of nuclear weapons research and production. Project facilities include disposal rooms excavated 2,150 feet underground in an ancient, stable salt formation.

### **NUCON International, Inc. Booth #: 812**

Contact: Robert Sommer  
Columbus, OH, USA  
P: 614-846-5710 x125 E: Bob.Sommer@nucon-int.com  
Website: www.nucon-int.com

NUCON specializes in high efficiency filtration process equipment. Activated carbon and specialty adsorbents for the control of radioiodine, mercury, sulfur, noble and acid gases. Testing of HVAC and filtration systems. Manufacture instruments for testing HVAC systems. Engineering, design, fabrication and testing of systems using adsorption technology including gaseous radwaste control.

### **NUVIA**

**Booth #: 322**

Contact: John Antignano  
Charlotte, NC, USA  
P: 704-998-5511 E: johna@fireriskmgt.com  
Website: www.nuvia.fr

Nuvia is a subsidiary of the specialist engineering group Soletanche Freyssinet, with 16,500 staff and a revenue of €3.4 billion. Freyssinet has been involved in the nuclear industry through worldwide use of its advanced engineering and innovative products.

Nuvia can trace its roots from the beginning of the French and British nuclear industries. The group has grown organically and through mergers and acquisitions. Pioneering work in construction, engineering, energy, nuclear R&D, design, new build, operations, radiation protection, fire and flooding protection and decommissioning. As a leader in these areas our strong emphasis is on safety, quality, and sustainability has been our number one priority. The company's rich heritage is reflected in the wide range of services provided today.

### **OC Robotics**

**Booth #: 942**  
**UK Pavilion**

Contact: Adam Mallion  
Filton, Bristol, United Kingdom  
P: +44(0)117-314-4700 E: adam@ocrobotics.com  
Website: www.ocrobotics.com

OC Robotics is a world leader in robotics for confined and hazardous environments. Our core technology, snake-arm robots, can have a reach exceeding 4m and their flexible design is ideal for working in confined and hazardous spaces, conducting inspection, maintenance and cleaning tasks with integrated off-the-shelf or custom-designed tools.

### **Off-Site Source Recovery Project – LANL**

**Booth #: 617**

Contact: Cristy Abeyta  
Los Alamos, NM, USA  
P: 505-667-3631 E: cabeyta@lanl.gov  
Website: osrp.lanl.gov

OSRP is a US Government activity, sponsored by NNSA, with a mission to remove excess, unwanted, abandoned, or orphan radioactive sealed sources that pose a potential risk to health, safety, and national security.

**ORTEC****Booth #: 619**

Contact: Susie Brockman  
Oak Ridge, TN, USA  
P: 865-483-2124 E: Susie.Brockman@ametec.com  
Website: www.ortec-online.com

ORTEC manufactures a wide range of radiation measurement instruments and systems for use in waste management operations associated with plant operation, decommissioning and waste disposal, including in situ characterization measurements and containerised waste assay. Visit the ORTEC booth to learn about our latest products, including our latest HPGe detectors, ICS mechanical coolers and ISOCART-85 mobile system for free release waste assay.

**PacTec, Inc.****Booth #: 822**

Contact: Mike Sanchez  
Clinton, LA, USA  
P: 800-272-2832 E: mikesanchez@pactecinc.com  
Website: www.pactecinc.com

PacTec Inc. has more than 25 years experience in the design and manufacturing of the most innovative and cost efficient packaging solutions for the nuclear and hazardous wastes industries. PacTec's IP1 and IP2 flexible containers are used on decommissioning sites and remediation projects around the globe.

**Pajarito Scientific Corporation Booth #: 201  
Silver Sponsor**

Contact: Michael Pitts  
Santa Fe, NM, USA  
P: 505-424-6660 E: mpitts@pscnda.com  
Website: www.pajaritoscientific.com

Pajarito Scientific Corporation (PSC) is an internationally recognized supplier of comprehensive, integrated solutions in the field of non-destructive assay (NDA), containment, filtration and specialist shielding. Where there is a requirement to locate, identify, characterize, contain or shield radioactive material, PSC has the solution.

PSC has over 25 years of custom manufacturing experience, from rapid prototyping through to fully developed systems. PSC offers a range of products and services based on our advanced design and manufacturing capability at our facilities in Santa Fe, NM and Groton, CT.

The Company employs highly qualified Physicists, Engineers (Electrical, Mechanical and Software), Field Operations personnel and Project Managers.

**Paragon D&E****Booth #: 1136**

Contact: Bill Smith  
Grand Rapids, MI, USA  
P: 616-949-2220 E: bill@compucraft.net  
Website: www.paragonde.com

Paragon D&E specializes in taking product development from concept to design to production. Paragon is DOE certified to NQA-1 and machines all materials from exotic high temperature alloys, non-metallic materials and composite structures. Paragon designs tool families that assure a customer has a quality product. Paragon also produces extremely large tools and parts. Our 5 & 6 axis machines have up to 60 ft tables that can handle unlimited weight.

**Pentek, Inc.****Booth #: 501**

Contact: Kathy Lefkowitz  
Coraopolis, PA, USA  
P: 412-262-0725  
E: kathy.lefkowitz@pentekusa.com  
Website: www.pentekusa.com

WM2016 marks Pentek's 30th year of service to the nuclear D&D industry. From early roots established during Three Mile Island Unit 2 accident recovery activities, Pentek is now a global supplier of engineering services and specialized equipment to support facility remediation and waste management, including decontamination of structural steel, concrete, wood and synthetic materials. VAC-PAC®, MOOSE® and WallWalker® are Pentek's flagship products.

Perma-Fix Environmental Services, Inc. is a nuclear services company and leading provider of nuclear waste management services. The company's nuclear waste services include management and treatment of radioactive and mixed waste for hospitals, research labs and institutions, Department of Energy (DOE), Department of Defense (DOD), and the commercial nuclear industry. The company's nuclear services group provides project management, waste management, environmental restoration, decontamination and decommissioning, new build construction, and radiological protection, safety and industrial hygiene capability to our clients. The company operates four fixed based nuclear waste treatment

facilities and provides the most comprehensive mixed waste management services nationwide.

Premier Technology, Inc. began manufacturing operations in 1996 and has grown to over 340 employees in that time. Customer growth has provided Premier the opportunity to move from a 24,000 sq. ft. facility to a 200,000 sq. ft. facility and maintain a constant workflow. With our current shop capacity, management, and manufacturing experience, Premier is capable of performing large-scale projects ranging up to \$100M. Premier is a progressive manufacturing company focused on the integration of technology and science with professional craftsmanship. We perform construction management, custom engineering, design, fabrication, testing, and installation for the nuclear, Department of Defense, Department of Energy, aeronautical, food, and chemical processing industries. We are known for our ability to supply the highest quality turnkey engineering, custom fabrication, system integration, and field installation solutions to those industries. Examples of custom fabricated items are: vessels, heat exchangers, exhausters, gloveboxes, hot cells, stairs, railing, platforms, conveyors, conveyance systems, structural steel items, skid technology, etc.

RJ Lee Group is an accredited analytical laboratory and scientific consulting firm. We partner with our clients to solve problems encountered during manufacturing and product development, to ensure regulatory compliance, and to determine the root cause of product failure as part of warranty claims or performance improvement efforts. Our network of technical experts provides you with customized solutions that are flexible, scalable, and best-suited to your application. For more than 30 years, we have worked toward one goal: to solve the technical challenges you face every day. Our comprehensive laboratory and expert staff are the foundation for all the services that we provide, including:

- Full Service Materials Characterization Laboratory
- Root Cause Failure Analysis
- Environmental Health & Safety
- Manufacturing & Process Quality Control
- Standardized Testing for Compliance
- Product Development Support (R&D)
- Litigation Support
- Laboratory Management Software

At RJ Lee Group, we believe that science speaks for itself. We just give it a confident voice.
